Pocket X

Pocket, by Spanish design duo Stone Design offers an elegant solution to a hitherto undesigned need. The cup-like chair has a shell that expands slightly upward in a comfortable embrace and allow for a neat and secure extra-storage in bustling public spaces such as hotel lobbies, waiting areas, bars, and restaurants. Pocket will also keep a neat order at the office, and why not at home?

While Pocket sits tight and sturdy on its short angled legs, the new Pocket X offers more flexibility with a castor solution.

	Pocket X
Seat height	44cm
Total height	78cm
Depth	52cm
Width	72cm
