

## Press Release

Tuesday 14 May, 2024

### Fluid, adaptable workplace products launching at Clerkenwell Design Week

During Clerkenwell Design Week 2024, Davison Highley is delighted to showcase its deep connection with the scenic Chiltern Hills, the home of its High Wycombe workshop. Everything is influenced by this idyllic locale; from engaging with nearby suppliers and employing local skilled crafts-people to the handcrafting of each piece of furniture. Our dedication to protecting it also steers our sustainability actions and accreditations, while the natural beauty of our surroundings inspires our design innovations. Join us as we celebrate this symbiotic relationship between design, local craftsmanship and environmental stewardship.

Davison Highley unveil two new collections at Clerkenwell Design Week; Elements and Reed.

#### Introducing the Elements Collection: Nature-inspired modular furniture

Inspired by the tranquil chalk streams of the Chiltern Hills near our workshop, where the gentle forms of river rocks align in perfect harmony and aquatic plants create ecosystems for wildlife, we proudly introduce the Elements collection. This innovative modular system encompasses a variety of chairs, sofas, ottomans, tables, and planters, designed for flexible and adaptable spatial arrangements.

Echoing the natural contours found in these serene landscapes, the Elements collection is crafted to facilitate seamless integration. Its organic curves effortlessly nestle together, promoting an environment of tranquillity and cohesion. The collection offers a diverse range of sizes, allowing for

the incorporation of ottomans, tables, and planters that enhance functionality and aesthetics. Additionally, integrated power sockets are available to meet modern connectivity needs, ensuring that each piece is not only visually appealing but also fully functional.

### **Explore the Reed Collection: Elegance meets ergonomic design**

The Reed collection gracefully brings to life the delicate aesthetics of reed flowers through its latest range of elegantly curved tub chairs. Crafted to offer resilience and style, this refined collection seamlessly blends form with function.

Available with an upholstered plinth, timber legs or enhanced flexibility through the addition of low glides, the Reed collection offers versatile seating solutions ideal for reception areas or break-out spaces. Designed to create intimate clusters of comfortable seating, these chairs feature a cocoon-like shape that envelops the user in comfort and relaxation.

**Breakfast talk: Demystifying Sustainability Trends \*\* FULLY BOOKED\*\* For press enquiries please email [andy@davisonhighley.co.uk](mailto:andy@davisonhighley.co.uk) \*\***

Wednesday 22<sup>nd</sup> May 2024 09:30- 10:30am

Immerse yourself in a critical dialogue during Clerkenwell Design Week 2024, hosted by Davison Highley. The breakfast talk, led by our sustainability consultant James Bell of Dragonfly Sustainability, promises a deep dive into the nuanced world of sustainability. James, known for his direct and insightful approach, will tackle the trending topics of sustainability with clarity and myth-busting expertise.
