

sixteen3 Ltd Introduces Ada: A Distinctive Range of Ottomans for Layered Interiors

sixteen3 present Ada, a range of upholstered ottomans designed with finessed aesthetics and customisation in mind. Ada blends timeless appeal with luxurious detailing to offer a versatile seating solution suitable for a variety of commercial interior settings.

Ada's design is led by the elegant piping details around the top, middle, and base of its cylindrical form. The split design of the cylinder allows for unique upholstery combinations or contrasts, providing designers with flexibility to create sophisticated, layered interiors.

The versatile design makes Ada the perfect fit for a range of interior aesthetics. For those leaning towards eclectic styles, Ada allows for clashing patterns, creating a vibrant and dynamic atmosphere. For bold and modern interiors, a monochromatic look can be achieved with tonal upholstery, emphasizing sleekness and sophistication. The option for contrast piping adds a playful touch, injecting a fun and lively vibe into spaces. Additionally, designers can opt for a colour-drenched approach using a single block fabric, making a bold and stylish statement that stands out.

Designers can choose from three different sizes and between discreet glides or castor feet. Whether opting for the mobility of castors for flexible arrangements or the stability of discreet glides for a more grounded feel, Ada can be tailored to suit various environments and design preferences.

Ada offers a wealth of personality in a compact form, proving it's more than just a seating option. This versatile ottoman can serve as a standout feature or a subtle accessory, enhancing the character of any interior space. Its customisable features and choice of mobility options make Ada an invaluable asset for any designer aiming to create memorable and unique interiors. Whether the design vision is eclectic, modern, playful, or bold, Ada's adaptability offers endless possibilities to match any aesthetic.

The Ada range will be available from launch on 21st May 2024. For more information about Ada, including where to purchase or view the range, and to explore the full range of sixteen3's furniture solutions, visit www.sixteen.co.uk/products/ada.
