

sixteen3 Introduces Romy: A Lounge Chair Range Evoking Contemporary Grandeur

sixteen3 Ltd is proud to introduce Romy, a spacious and elegant lounge chair range designed for optimal comfort with an air of contemporary grandeur. Romy offers a refined approach to relaxation in interior spaces, combining sophisticated aesthetics with impeccable style to create an atmosphere of comfort and luxury.

The Romy lounge chair offers two distinct height options—mid back and high back—each tailored to different preferences and aesthetics. The high back version exudes grandeur with its prominent wings, creating a dramatic silhouette that serves as an inviting focal point. Crafted for those who seek indulgent comfort and style, the high back Romy not only provides a spacious seating area but also enhances acoustics, making it ideal for fostering private conversations or providing a cosy retreat amidst the hustle and bustle.

In contrast, the mid back Romy features a lower profile, offering a more open and visible presence in office settings while still delivering support and comfort. This version improves sight lines, enhancing the flow and openness of a space and encouraging collaboration and interaction among users, making it an excellent choice for creating inviting, social areas or collaborative workspaces.

With a versatile range of three leg styles—star base, wooden four-leg, and tubular metal leg—Romy encourages personalised expression and ensures seamless integration into any interior scheme. The swivel star base offers flexibility and ease of movement, while the wooden four-leg carries a timeless elegance with customizable finishes ranging from natural wood to painted colours. The tubular metal leg, available in our range of 24 metal finishes, introduces a contemporary flair to the design. Its tubular frame wraps around Romy's upholstered body, adding an extra layer of creative styling and creating a striking yet sophisticated contrast detail.

Romy boasts a spacious seat that invites users to settle in and find their ideal position with ease. Whether opting for the mid back or high back version, individuals are treated to ample room for comfortable seating, allowing for free movement and accommodating various postures without feeling restricted. The generous seating space also serves as a versatile canvas for creating layered interiors with the addition of scatter cushions, elevating both

style and comfort. This adaptability allows Romy to be tailored for various preferences day to day and updated for the evolution of interior schemes in the longer term.

The Romy range will be available to order from launch on May 21st, 2024. For more information about Romy and to explore the full range of sixteen3's furniture solutions, please visit www.sixteen.co.uk/products/romy.

About sixteen3:
