

GreenMobility offers 100% electric and shareable cars in Helsinki

GreenMobility operates a free-float carsharing platform in multiple European cities. GreenMobility first came to Helsinki December 15th 2020.

GreenMobility offers modern urbanites easy, flexible and sustainable transport in the form of electric, shared city cars. The car model is a brand new Renault ZOE, that can drive up to 395km with a full battery.

From one single app, the customers have access to 150 electric cars around Helsinki, as well as thousands of electric cars in Europe. In the app, you can find a car nearby, open it and lock it. Customers have free parking within GreenMobility's operational zone and can rent the electric car per minute, per hour or per day. With us, signing up, charging, insurances and maintenance are completely free.

A green vision

Today, GreenMobility operates a total of 1600 EVs in Copenhagen, Aarhus, Malmö, Gothenburg, Antwerp, Ghent, Brussels, Helsinki, Amsterdam, Dusseldorf and Cologne. More than 180,000 people have signed up with GreenMobility. GreenMobility continues to expand to new cities and grow the business, to support more sustainable city environment.

GreenMobility's ambition is to be among the leading global operators of green shared mobility solutions. GreenMobility is listed on the Nasdaq in Copenhagen.
