

MASTER BEDROOM

The master bedroom has been designed to create your perfect calming sanctuary.

With furniture made from natural materials, calming colour pallets, planting and wall art that allows you to be whisked away to another world away from reality.

To finish off your oasis of calm is the Sky Glass 55-inch ceramic white TV. This award-winning TV not only looks and sounds great, it also boasts time saving features including smart search so you can spend less time searching and more time watching. Sky Glass can find any show or movie across any app in seconds. Just ask!

- Ringblomma roman blind

TOP TIPS

- Pick a calming colour pallet, with Earthborn paint.
- Choose bedsheets that are 100% linen as it's breathable and moisture wicking qualities help keep you cool when it's hot and warm and toasty when it's cool, so you always get the perfect night's sleep.
- Pick furniture that's a natural material. Studies have shown that having natural products can help relieve stress, increase cognitive abilities, and make the user feel much calmer and centred. Having a positive space is crucial for good mental health, and natural products help achieve this.
- Pick wall art that compliments your space, and makes you at one with nature
