

ABOUT US

Oaklands Plastics is an established, market leading company that designs & manufactures an extensive range of products for the construction, traffic management, utility, rail and hire industries. All our products are distributed via approved stockists, based in the UK and Europe.

With over 25 years experience, Oaklands Plastics is a UK recognised industry specialist in rotational moulded products. When it comes to quality products, special industry requirements, custom designs and rapid timescales, Oaklands Group is the preferred partner in a variety of markets.
