## Novatik NATURA | STONE

**AUTHENTIC LOOK, SPECIAL DESIGN, GUARANTEED DURABILITY**  
The consistency in our production process and our commitment to developing new styles for our customer's roofs drives us to implement a brand new profile in our stone chip coated metal tiles range: Novatik NATURA STONE. We designed Novatik NATURA STONE profile to recreate the unique image of the old traditional stone roofs.

## Novatik NATURA | SLATE

**MINIMAL ASPECT WITH MAXIMUM PROTECTION FOR YOUR ROOF**  
All the appearance of natural slates, combined with the strength of steel and the weather resistance of a rock chip coating, this minimalist design is an ideal choice for those seeking a more modern look. With its flat profile and neutral colour, NATURA SLATE is suitable for both vertical and pitched roofs, perfectly meeting the needs of contemporary architectural design.

## Novatik NATURA | ROMAN

**A MEDITERRANEAN ROOF STYLE**  
With its warm colours, smooth slopes and broad curves, Novatik NATURA ROMAN perfectly captures the ageless appeal of sunbaked Mediterranean roofs, but unlike traditional terracotta tiles our NATURA ROMAN panels are lightweight and immensely strong.

## Novatik NATURA | WOOD

**THE PERFECT COMBINATION OF METAL, WOOD AND STONE**  
Novatik NATURA WOOD captures the natural beauty of a wood shingle roof. Long lasting, easy and quick to install and low maintenance, the modern materials used in its manufacture overcome the disadvantages of a traditional wood roof. Novatik NATURA WOOD is the ideal choice for those who are seeking a roof with a more rustic appeal.

## Novatik NATURA | CLASSIC

**A CLASSIC DESIGN RECREATED BY MODERN TECHNOLOGY**  
With its curved lines and symmetric profile, Novatik NATURA CLASSIC is versatile and timeless. It is the perfect choice for those seeking an elegant roof style that will always be in fashion.
