

BROADCAST TechFEST

Brought to you by the team behind Broadcast Tech magazine, the Broadcast TechFest series brings together industry experts to explore a wide range of topics.

Broadcast TechFest takes a deeper dive into key industry themes, offering smaller, more intimate networking opportunities and focused discussions.

The 2024 events included:

- Archive & Restoration Forum – Everyman Kings Cross
- AI Creative Summit – BFI Southbank
- Cloud Innovations Forum – Everyman Kings Cross

These events provide a valuable platform to examine the evolving landscape of broadcast technology, in a series of lively, insightful conferences that bring together end users and technologists.
