

SHELL SCHEME SPECIFICATIONS

Wall Partitions

The structure consists of 2.47m high back and dividing walls made from 3mm thick, plain white foamex panels. These panels are supported by aluminium poles, which have a width of 40mm and therefore sit proud of the panel by 20mm. **It is essential that these dimensions are taken into consideration if building an interior to the shell scheme.** Please contact **SUNYAU EXPO** for more exact calculations relating to a specific stand.

The graphic panel area is 2370mm (height) x 950mm (width).

***Please pay particular attention when ordering graphics as the internal graphic sizes have altered slightly. If you have any questions, please contact SUNYAU EXPO via details below.**

The panels are non-loadbearing, but lightweight display material may be attached to them with double-sided adhesive tape, or by other means that do not damage the panels in any way.

SFFA, SCTA & MPA's wall panels are WHITE - see visuals of page 3, 4 & 6.

RPBA's wall panels are BLACK - see visuals on page 5.

Ceiling

The system does not include ceiling beams.

Nameboard

A nameboard will be fitted to each open side to carry the exhibiting company name and stand number only. The show logo will be on the fascia as indicated on the visual.

SFFA Premium stands will have an orange fascia. The nameboard is white with black lettering.

SCTA Premium stands will have a light orange fascia. The nameboard is white with black lettering.

RPBA Premium stands will have a gold fascia. The nameboard is a lighter gold with black lettering.

MPA Premium stands will have a brown fascia. The nameboard is white with black lettering.

Floorcovering

No platform will be provided.

SFFA Premium stands include a charcoal grey carpet which will be laid direct to the hall floor.

SCTA Premium stands include a charcoal grey carpet which will be laid direct to the hall floor.

RPBA Premium stands include a light brown carpet which will be laid direct to the hall floor.

MPA Premium stands include a charcoal grey carpet which will be laid direct to the hall floor.
