## What Are French Tacos?

**French tacos** are a culinary masterpiece that blends the French love for cheeses with the vibrant zest of Mexican street food. Imagine a warm, soft tortilla enveloping a delectable mix of spicy tender meats or grilled vegetables, pre-fried chips and a luscious, creamy cheese sauce. Each bite is a harmonious explosion of taste and texture that will leave you craving more.

Over the past decade, **French tacos** have become a culinary sensation among teenagers and young adults in France. This unique fast food item, which shares little more than its name with the traditional Mexican taco, has carved out a significant niche in the French fast food market.

For the 1st time, FRIMA is offering a frozen version of **French tacos** ready-to-eat on the RETAIL market.
