

Growing in a **responsible** manner with clear **ambitions**

Good governance is fundamental to our commitment to sustainability and operational excellence. It encompasses regulatory compliance, ethical decision-making, risk management, and strategic planning, ensuring that we meet the expectations of all our stakeholders.

- › As a data-driven company, we are taking significant steps to enhance our cybersecurity.
- › The safety of our employees and other road users is our top priority.
- › Everything revolves around good employment practices and fostering sustainable relationships.
- › Measuring our carbon footprint to be transparent and gain insights, which will serve as the foundation for progress and achieving reduction of emission.

employees

Farm Trans leads the way in safe and smart 4PL food logistics. While our roots are in bulk transport, we have years of experience in the worldwide logistics of fresh and frozen products.

NEXT LEVEL

4PL Logistics

- › Supply Chain Management
- › Logistics
 - Value Added Services / Value Added Logistics
 - Warehousing & Cross-docking
- › Transport: Bulk & Temperature controlled transport
- › Custom forwarding services

To and from the United Kingdom

Specializing in LTL (Less-Than-Truckload) and FTL (Full-Truckload) shipments, we ensure efficient daily departures to, from, and within the UK. Our expertise lies in the logistics of fresh and frozen veterinary and non-veterinary food products. We provide complete logistical solutions, taking full responsibility for preparing all necessary Export-EU and Import-UK documentation. This ensures seamless customs clearance in both directions. In particular, for time-sensitive products such as fresh meat and poultry, our advanced ICT solutions and real-time live portals enable fast and reliable deliveries from point A to B.

BETTER CONNECTED WITH FARM TRANS

More efficient and more sustainable transport throughout Europe and the UK

Use the power of IT with the power of people

All your logistics data integrated in one system

One permanent Account Manager for your entire process

Continuous insight via real time dashboards and reports
