Who we are

Yorkshire Baking Company was founded upon 50 years of experience in the baking industry by bakers who are serious about their art, Based in the heart of Yorkshire, we believe baking is not just a means to an end, but an ideology, a way of life, a way of expressing yourself, expression not by silly marketing or adverts but with the perfection of the product that is created, by the cakes that are baked. Yorkshire Baking Company was established upon these principles, what you see is what you get.

Baking great cakes and biscuits...

Our ideology has been firmly endorsed by the enthusiasm of major retailers to stock and promote Yorkshire Baking Company products. Another key factor in Yorkshire Baking Company success has been its ethos that cakes taste best when they've been freshly baked using exactly the same ingredients and techniques as those used in traditional recipes.

For this reason, Yorkshire Baking Company has State of the art facilities with a team of resident expert bakers and cake decorators who have the same ethos. This enables Yorkshire Baking Company to proudly bake the finest cakes and biscuits.
