Our Story

Nesco Food and Beverage began its journey on October 1st, 2016 with our Tea Co. brand, driven by the vision of showing the world that tea is so much more than black tea. Over the years, Nesco has grown into an innovation-focused, multi-brand company offering unique beverage and dessert products to global markets.

We produce all our items using the highest-quality raw materials in our certified facilities, operating in full compliance with international standards. Our production sites hold BRC, IFS, HALAL, VEGAN, ISO9001, ISO22000, ISO10002 and FDA certifications.

Today, Nesco continues its operations across two manufacturing plants located in Ankara Kahramankazan:

- 1600 m² facility dedicated to popping boba, bubble tea ingredients and teas
- 3500 m² modern facility focused on ready-to-drink beverages, functional drinks, cotton candy innovations and scale-up production

Our brand portfolio includes Tea Co., The Boba Co., Popping Bubble Tea, CO8 and SugaPop. Through our two state-of-the-art factories, we manage complete end-to-end operations including R&D, recipe development, production, packaging, export logistics and private label manufacturing.

Combining strong technical capability with a global mindset, Nesco is committed to delivering innovative, high-quality products and building long-term partnerships worldwide.

OUR MISSION

Our mission is to redefine the beverage experience by producing innovative, high-quality products that bring new value to the global market. We commit to excellence with honesty, transparency and unwavering quality as our guiding principles.

We champion women's employment, empower local expertise and place consumer satisfaction at the core of every decision we make. Through advanced R&D, responsible production and a passion for innovation, we aim to deliver exceptional beverages that inspire trust and delight with every sip.

OUR VISION

Our vision is to transform the perception of tea and beverages, showing the world that true craftsmanship goes far beyond traditional black tea. With production processes that honor nature and prioritize sustainability, we aspire to set new benchmarks in the beverage industry.

By leading innovation in Türkiye through one hundred percent locally developed and manufactured products, we aim to shape the future of the beverage sector. Our goal is to create bold, unconventional and category-defining concepts that elevate global standards and position Nesco as a pioneer in modern beverage innovation.

Drinkable Glitter Bombs

Drinkable Glitter Bombs are simply adding liquid to a specially crafted cotton candy base, these products instantly create visually striking drinks that shimmer with edible glitter, captivating both the eyes and the taste buds.

Designed for a modern, experience driven audience, Drinkable Glitter Bombs offer fully customisable flavours and colours. The magical **“cotton candy meets sparkle”** effect not only creates a memorable sensory experience but also turns every sip into a highly shareable.

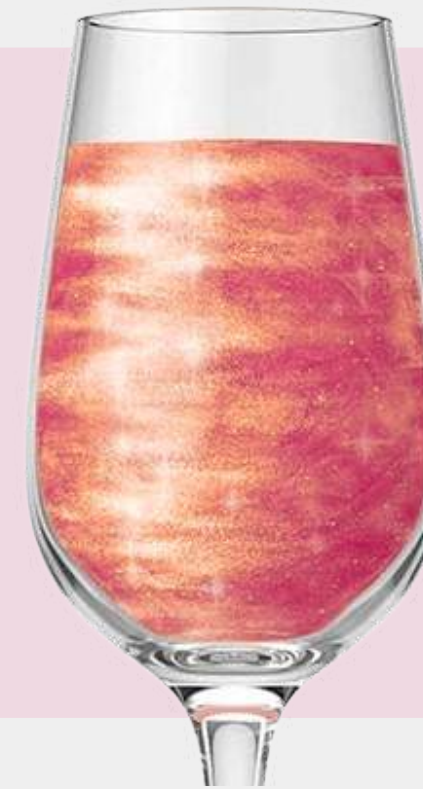

For brands, this innovative concept presents a unique opportunity to stand out in a crowded beverage market, drive consumer engagement, and deliver a product that is as visually impressive as it is delicious. Drinkable Glitter Bombs combine creativity, fun, and flavor in one unforgettable package.

CO8 Drinks Co.

Refreshing Innovations in Cans

Artisan Sparkling Teas • Mocktails • Functional Drinks

CO8 Drinks Co. offers a broad product portfolio under the vision of **“Refreshing Innovations in Cans”** ranging from sparkling iced teas and mocktails to functional drinks and real brewed tea based. All recipes are developed with a clean label philosophy, powered by plant based ingredients and supported by production standards that comply with EU and US beverage regulations.

The gently sparkling iced teas provide a modern and refreshing alternative for everyday consumption with their real tea bases, natural colours and creative flavour combinations, while the sparkling mocktail range reinterprets classic cocktails in tropical, fully alcohol free and sugar free formats that appeal especially to younger, experience driven consumers. The plant powered functional drinks are formulated to support different needs such as energy, digestion, immunity, focus and sleep, offering **better for you** options aligned with health and wellness trends.

TEACO.

Loose Leaf Tea
50g Tin

Loose Leaf Tea
25g Tin

Muslin Tea Bags
12 Sachets
15 Sachets

Our muslin tea bags, which do not release microplastics or nanoplastics into the tea, are filled with loose leaf teas and sewn by hand.

As they prevent the loss of the tea's aroma and flavour, we offer tea lovers a higher quality and more enjoyable tasting experience.

NEW

Pyramid Tea Bags

TEACO.

PLA pyramid tea bags reflect our commitment to sustainability while delivering an elevated brewing experience.

Combining eco-conscious design with exceptional performance, our PLA pyramid tea bags meet the expectations of today's discerning tea consumers and align seamlessly with global sustainability standards.

Made from plant-based, biodegradable PLA material, they ensure the purity of each blend by allowing water to circulate freely through the tea leaves. The spacious pyramid structure enhances infusion, unlocking richer aromas, fuller flavor profiles, and a consistently premium cup.

Export Network

By **2025**, the brand expanded its reach to over **25** countries across Europe, the Middle East and Asia.

Production Facilities

65 PEOPLE

At our first production facility in Kahramankazan, Ankara, we operate with a dedicated team of 65 professionals, committed to delivering the highest quality standards in every product.

3.500 M²

Earlier this year, we inaugurated our second production facility, spanning **3,500 m²**, significantly enhancing our manufacturing capacity and operational capabilities.

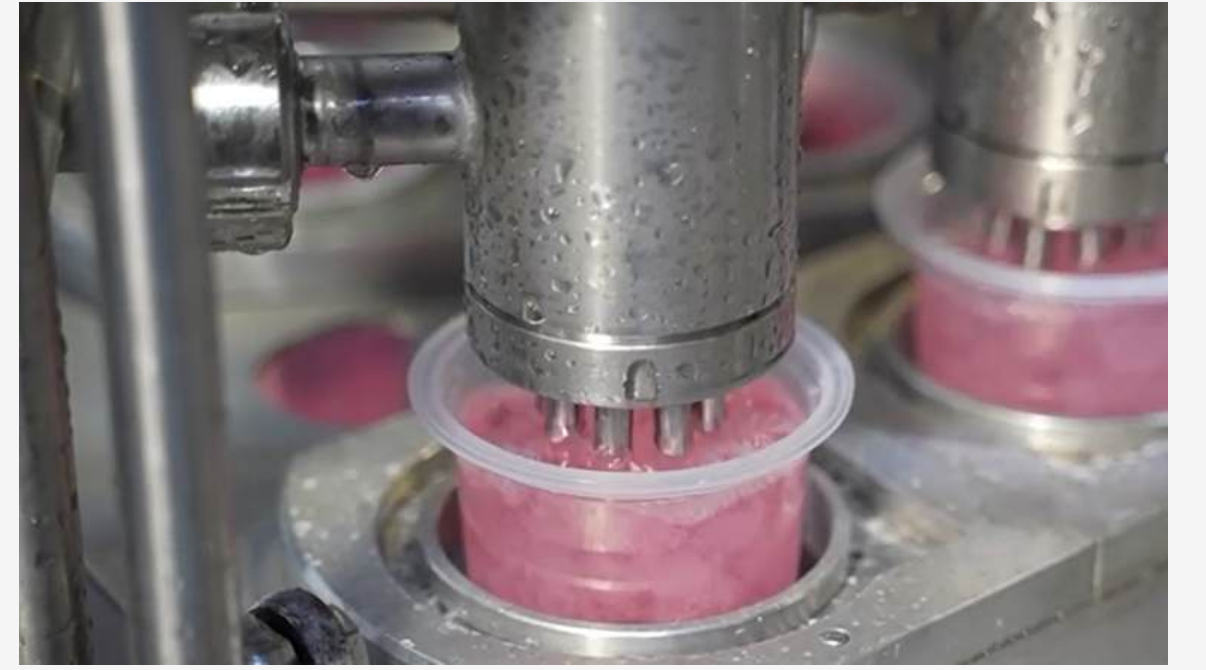

Our Production Facilities

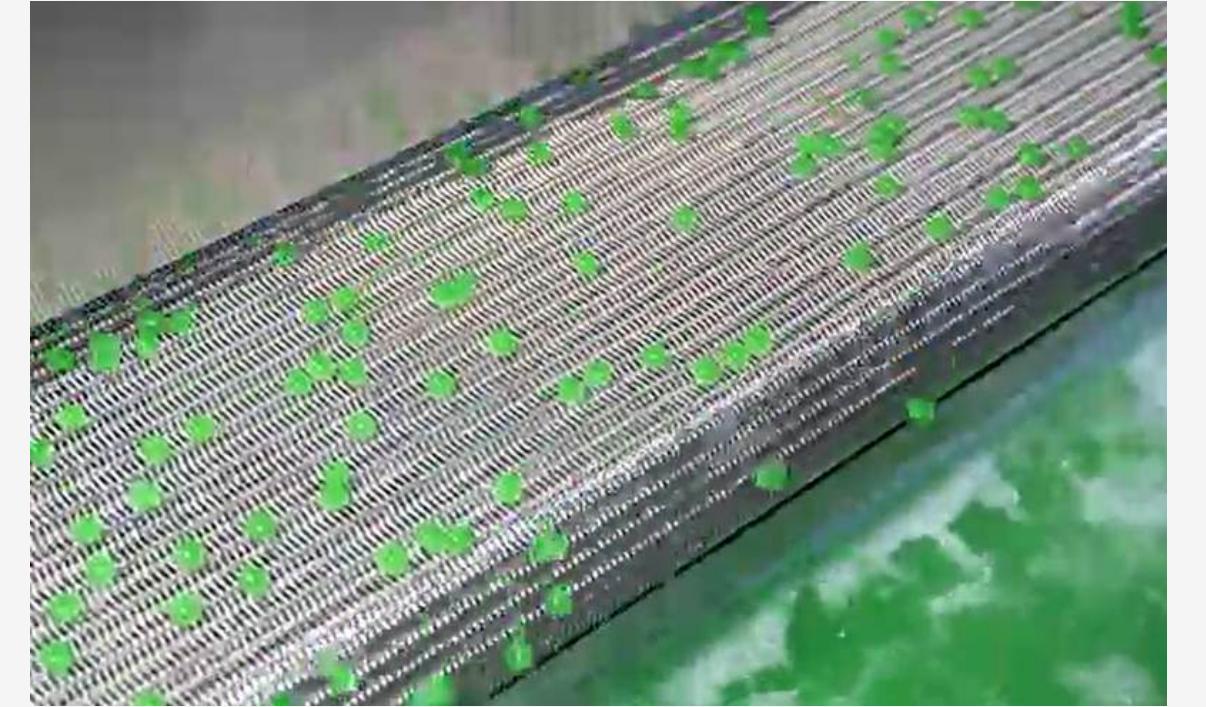

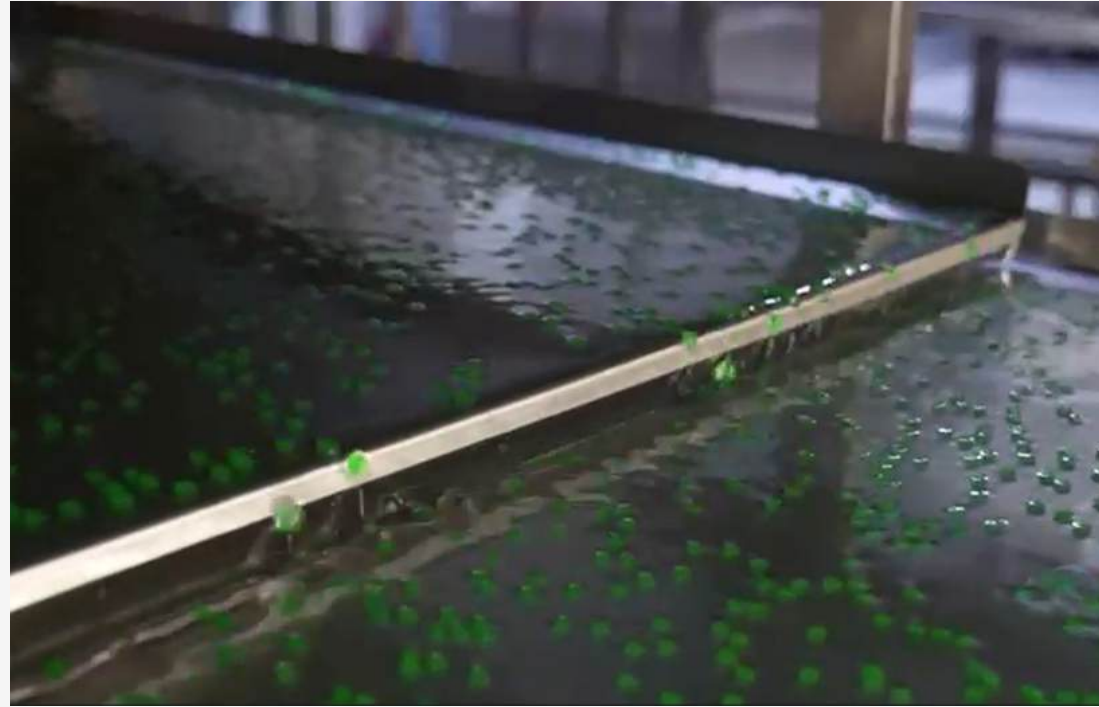

Both of our facilities are proudly locally operated and fully **BRCGS** certified, ensuring that every step of the production process meets the most rigorous international food safety and quality standards. Together, our two factories enable us to efficiently scale production, meet growing demand, and maintain full control over sourcing, processing, and packaging all while supporting domestic manufacturing and local employment.

By combining modern technology, strict quality control, and a skilled workforce, our production network not only ensures consistent excellence but also reinforces our commitment to delivering safe, premium products to our customers both locally and internationally.
