ABOUT OUR COMPANY

For 25 years making drinks is our passion. This exact passion lead to an idea of adding coffee drinks – world’s most beloved beverages – to our assortment.

We are able to produce coffee drinks with a vast choice of flavours. It may be classical black coffee and white flavored coffee. We’re offering various additions based on our clients’ requirements: sweet coffee, milk coffee, flavoured coffee and so on.

Our beverages are produced in state-of-the-art production facility using highly advanced equipment. This enables us to offer drinks with one year expiry date, that do not need to be stored in refrigerators.

vanilla flavour*

Caffe Latte

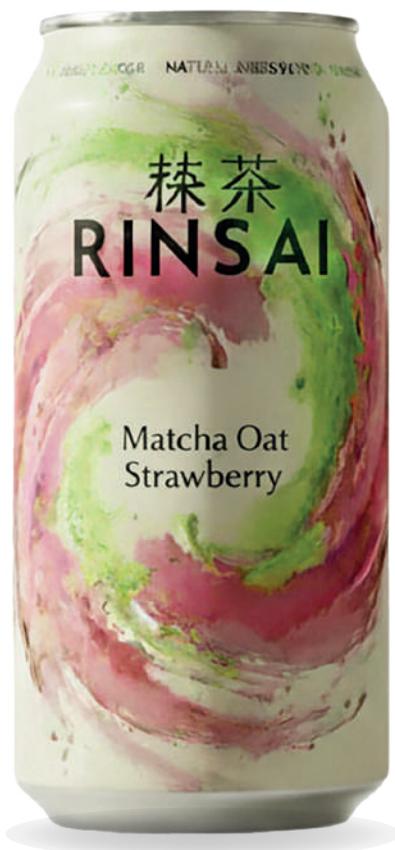

By definition Caffe Latte is a delicate coffee based on single espresso with a lot of milk. And this is exactly what our signature coffee is – sweet, delicate but with a clear coffee taste. It's just amazing drink for any part of the day and for anyone.

Double Shot Latte

Double Espresso on the other hand is a proposition for a demanding connoisseurs of coffee. It's an equivalent of a double espresso with milk addition. This coffee has its own unique nature with the dark coffee roast aftertaste and a delicate bitterness, yet harmoniously sweet. It works wonders in the morning, but it will give you pleasure any part of the day.

Our beverages are made based on dark roasted coffee and high quality powdered milk – from Polish producers. After filling in aluminium cans, the drinks are rigorously sterilized, which gives them freshness and durability for a year.

Rinsai *Matcha Lattee*

Discover the perfect balance of earthiness and sweetness with our signature Matcha Latte series. Available with either creamy dairy milk or a smooth oat alternative, each drink is elevated by refreshing fruit notes and natural aromas for a unique taste experience.

EXPORT

Our presence on international markets is growing steady since the beginning in 2001. Currently our beverages are available in more than 60 countries on 6 continents. We are offering our brands as well as private label with any recipe available in our lab.

Thanks to many years of fruitful cooperation with transport and logistic companies we may offer very competitive transport rates (road and sea). We are also happy to share our experience with introducing the new product on the market.

QUALITY IS THE HIGHEST OF *OUR COMPANY VALUES*

Our products fulfill the highest health requirements of certification and audit companies. The use of state-of-the-art equipment, highest quality ingredients and modern technology allows us to provide our Clients with products of unparalleled quality, confirmed by the below certificates.
