OUR NEW PURPLE LABEL: STRIKING AND IMPRESSIVE

Our new purple label, which best reflects Ceysu's innovative vision and commitment to quality, stands out with its eye-catching and sophisticated design. Purple, a color rarely found in nature, symbolizes elegance and value. While this label signifies Ceysu's purity and perfection, it also harmonizes beautifully with the enchanting nature of Antalya.

The unique purple hue of the Taurus Mountains at sunset becomes a symbol of natural beauty and represents strength, resilience, and the aspiration to reach new heights. These values resonate deeply with our brand. With our new purple label, we present the natural essence of water in a stunning manner, while also combining Ceysu's understanding of high quality with impressive visuals.

We continue to offer you the very best.

DISCOVER CEYSU

Elevating Hydration with Alkaline Purity

Founded in 2003, Ceysu has grown into a respected brand of natural spring water sourced from the pristine Tekirpinar Spring in the Taurus Mountains in Antalya, Turkey. The water of Ceysu is valued for its balanced alkaline pH and contains high levels of calcium and magnesium, embodying the purity of the source.

Perfectly balanced minerals

The variety of PET and glass bottle sizes offer its consumers a refreshing choice in a modern and ergonomic design.

Aside from its refreshing taste, Ceysu places great emphasis on health and is characterized by its low sodium content. The recent rebranding reflects a modern, chic image, complemented by a new glass bottle design.

Ceysu's local stronghold in Antalya in the Mediterranean region, as well as its competitive prices and production capacity, make Ceysu a compelling choice in the bottled water market that gains traction both nationally and internationally.

AWARD WINNING WATER OF TURKEY AND EUROPE

Ceysu takes great pride in its reputation as a top-quality bottled water brand, consistently lauded for its exceptional taste and purity.

Year after year, Ceysu has been honored with the esteemed Superior Taste Award from the International Taste and Quality Institute (iTQi). Notably, Ceysu has clinched this prestigious accolade in consecutive years, from 2013 to 2016, and once again in 2019. This achievement reflects Ceysu's commitment to delivering high-quality, pure water that consumers can trust.

ZERO WASTE

We are deeply committed to protect our natural resources

With a firm focus on securing a sustainable future for future generations, we use the power of the sun to power our production processes. Operating in harmony with nature, we employ a zero waste management system, minimizing our environmental footprint. With unwavering dedication, we march towards the future, preserving our energy while paving the way for a brighter tomorrow.

PRODUCT RANGE

With a range of bottle sizes, Ceysu efficiently caters to different preferences. Our pH 8 water is rich in calcium (31.78 mg/L) and magnesium (3.9 mg/L) while maintaining minimal sodium content (1.31 mg/L). This mineral-rich blend is beneficial for bone health, cardiovascular well-being and overall vitality.

CAPACITY

At Ceysu, our pursuit of excellence is evident in every step of our production process. Our products are crafted with precision and care using state-of-the-art technology, ensuring pristine purity from source to bottle. With a sprawling factory of 26,000 square meters, equipped with modern production machines, we have a daily water production capacity of 2 million liters.

Our commitment to quality is unwavering. Every Ceysu product undergoes rigorous testing on our state-of-the-art production line, where hourly sample checks and microbiological and chemical testing are carried out. Our products are held to the highest standards of safety and purity and each batch is stored securely in our 4000 square meter enclosed storage area.
