Our History Continues...

Why choose Alberti e Santi?

For 65 years, Alberti e Santi has been transforming **hands-on expertise** into **tailored logistics solutions**, managing every phase of transport with precision and proactivity.

Our specialized team anticipates potential challenges, while a **dedicated customer service** ensures constant support that goes beyond industry standards.

This approach is reinforced by our ongoing commitment to process improvement, demonstrated by the renewal of our **ISO 9001:2015 and ISO 14001:2015 certifications**.

To support the **company's sustainable vision**, we provide **detailed CO₂ emissions reporting** through **Greenrouter**, helping customers manage their supply chain more consciously and with a stronger focus on reducing environmental impact.

Road Freight

For over 65 years, **road transport** has been at the heart of A&S. Thanks to our fleet and an extensive network of commercial partners across Europe, we offer **full truckload (FTL), less than truckload (LTL) and groupage services**, with both national and international collection and distribution.

We plan transport operations by placing the customer's need at the, providing a wide range of tailored solutions — including the positioning of standby semitrailers — to ensure maximum loading flexibility.

FTL – Full Truckload

- Shipments of goods throughout Europe, using the most suitable vehicles to meet the customer's needs;
- Delivery with tail-lift service.

LTL - Groupage

- Import and export services between Italy and all European countries, with scheduled line services especially to and from the United Kingdom, Ireland, the Benelux region and Poland;
- Frequent and regular departures;
- Transport of palletized goods as well as loose items such as cartons, reels or machinery, using specific loading and unloading equipment;
- Express deliveries.

Intermodal Transport

Intermodal: the efficiency that moves the goods

- Our expertise in intermodal transport allows us to deliver high - performance services that meet our customer's expectations;
- **Since 1994, we have been a leader in intermodal transport**, offering scheduled services to and from the UK, Ireland, the Benelux region and Poland;
- We provide carefully designed and certified services aimed at minimizing environmental impact and improving road safety;
- Alberti e Santi's intermodal division operates with volumes reaching **130 units per direction per week** toward Northern Europe.
The expansion of our fleet — **now consisting of 600 swap bodies and 126 containers** — aims to reach a traffic volume of **160/170 units per direction per week**.

Transport Execution

Sea Freight

Your goods in containers sailing safely

- We have agreements with the most important carriers in the maritime sector and work in close synergy with them to offer services on international level;
- **We provide cross-trade services and door-to-door shipments;**
- We offer you our experience and reliability to ensure fully customized services.

Full/Less Container Loaded (FCL / LCL)

- We ship goods worldwide;
- We offer the best solutions by combining optimal cost and transit time;
- We provide groupage services both in conventional mode and in hold, with weekly departures.

Air Freight

Your goods travel in 'First Class' with Alberti e Santi

We offer air freight services with daily departures, both consolidated and direct, to and from the main worldwide destinations.

We collaborate with the most important international airlines, ensuring reliability, speed and professional handling of every shipment.

Our services include:

- Charter services;
- Consolidated shipments (BacktoBack) or direct;
- Handling Service;
- Standard or express services;
- Dangerous goods;
- Crosstrade shipments;
- Customs clearance for import/export;
- Handling of loose or palletized cargo.

Customs Assistance

Customs warehouse: safe and tax-efficient storage

In 2019, Alberti e Santi obtained authorization from the Customs Agency to designate its Cortemaggiore warehouse as a **private customs warehouse**.

The customs warehouse allows the storage of goods arriving from non-EU countries while **keeping VAT and duties suspended**; these will only be applied once the goods are customs-cleared.

Alberti e Santi handles all customs formalities to and from non-EU countries, both for import and export.

A&S for the environment

Alberti e Santi supports three environmental initiatives that generate a real impact on the territory:

3Bee, for the protection of biodiversity through the safeguarding of ecosystems and bees;

Treedom, by planting trees in agroforestry projects that absorb CO₂ and support local communities;

Airlite, an innovative technology applied to our swap bodies, capable of purifying the air by eliminating up to 80% of pollutants.
