from the Amazon**

# About us

Starting from humble beginnings, Acai Berry is blowing up. On a mission to find good authentic acai in the UK, our brazilian founder Marcus simply couldn't find any so he decided to make and import his own.

It caught on. Starting as a market stall on London's Brick Lane in 2017, the first bricks and mortar store opened in London a year later and now we have stores in London, Dubai and New York - and our acai stocked in some of the best members clubs, gyms and cafes in the UK.

Regularly going viral on social media, we have a cult following amongst young, health-conscious consumers looking for something that tastes like a treat but feels like balance.

# What is acai?

Our acai is made from berries grown in the Amazon Rainforest. They are picked and frozen within hours to lock in their nutrients. The pulp is extracted and this is what forms the base of our puree.

**ACAII BERRIES** are naturally rich in plant polyphenols, responsible for the deep purple colour of acai.

## VEGAN

Naturally and certified vegan, it's a great ice cream alternative to eat on its own - or as a base for acai bowls and smoothies.

## GLUTEN & ALLERGEN FREE

Our Original acai contains no allergens so it can cater to almost any dietary requirement.

## ALL NATURAL INGREDIENTS

Made from the highest grade organic acai pulp, it contains no artificial colours or preservatives.

## FROM LESS THAN 100 CALORIES PER SERVING
