May 2025

# About the Factory

---

Since its establishment in 1995 in the capital of the Kingdom of Saudi Arabia; Riyadh, Al-Hussan Food Products Factory has been working to produce high-quality natural vegetable oils. The factory's vision was inspired by the authenticity of nature and sought to provide products that combine purity and quality using the best natural seeds and the best techniques used in extracting oils from seeds. Over the past decades, the factory has evolved to become a reliable partner in local markets. Our constant commitment to excellence has led us to build a wide network of customers, while maintaining global standards in production and packaging quality by obtaining the factory's ISO certificate (ISO 22000:2018). This was not a coincidence, but rather - with God's grace - the result of a clear strategy, sincere efforts, and dedication to achieving customer satisfaction and contributing to enhancing food security and public health.

## Our Vision

To be a global leader in the production of natural foods, by providing distinguished products that contribute to improving health and enhancing the quality of life. Our vision is based on innovation, sustainability, and industrial excellence, while committing to our role in supporting the Kingdom's Vision 2030 for economic and industrial renaissance.

## Our Mission

To be committed to producing healthy natural plant products according to the highest quality standards. We strive to be the preferred choice for customers looking for healthy and natural food products, while achieving successful partnerships that contribute to meeting the growing demand for healthy food locally and globally.

# Our Values

## Quality

01

We periodically test our products at centers accredited by the Saudi Food and Drug Authority to ensure their quality, and we rely on the highest international quality standards in all stages of our work to ensure the provision of pure and healthy natural products. We also choose the finest types of natural crops in the world.

## Back to Nature

02

Our products reflect our commitment to serving food as it should be; natural and pure. We ensure that all the nutritional and natural properties are preserved. We are committed to providing products that are pure and free from any additives, chemicals or artificial colors.

# Our Values

## Sustainability

03

We believe that preserving the environment is everyone's responsibility, so we are keen to apply environmentally friendly practices in all stages of production, packaging, and distribution.

## Quality of Life

04

We put healthy nutrition at the forefront of our priorities by providing high-quality natural products that are rich in healthy nutritional benefits and promote a healthy and balanced lifestyle.

# Our Values

## Integrity and Responsibility

05

We are committed to transparency, honesty and professionalism in all our dealings with all customers and suppliers, and we always strive to provide the best in a way that reflects our values and work ethics.

## National Responsibility

06

As a Saudi business, we are proud of our contribution to promoting the national industry and exporting it globally, supporting the community by providing healthy food products and contributing to achieving the Kingdom's Vision 2030 towards "a vibrant society, a thriving economy and an ambitious nation."

# Our Products

Natural products are the basis of health and quality of life, which is why we are keen to provide high-quality natural plant products. We are committed to the highest quality standards to ensure the purity of our products and maintain their nutritional value.

**Sesame Oil**

We carefully extract sesame oil from the best sesame seeds in the world, as they are grown without the use of fertilizers or chemicals and are watered with rainwater, and are harvested manually.

## Production Method

Our sesame oil is extracted using the cold screw pressing method, which ensures that the nutritional value of the oil and all its natural properties are preserved.

## Packaging

The product is available in glass bottles, and each bottle contains 250 ml of pure natural sesame oil, and a carton of sesame oil contains 20 bottles. We also provide bulk sesame oil for commercial quantities.

## Applications

- Our sesame oil product has many uses, as it is used in:
- › Cooking; as it adds a distinctive flavor to various foods.
  - › With ready-made meals; such as rice, salads, beans, lentils, popular and western dishes.
  - › Moisturizing and nourishing the skin and treating skin infections
  - › Maintaining a healthy scalp, nourishing it and caring for the hair
  - › For the body and massage (massage) as it nourishes the body and skin

# Our Products

Natural products are the basis of health and quality of life, which is why we are keen to provide high-quality natural plant products. We are committed to the highest quality standards to ensure the purity of our products and maintain their nutritional value.

**Black seed oil**

We extract black seed oil from the finest types of black seed seeds in the world, as we import them from Ethiopia. They are grown without the use of fertilizers or chemicals and are watered with rainwater.

## Production Method

Our black seed oil is extracted using the cold screw pressing method, which preserves the fixed oil and volatile oil together, and ensures that all its natural properties are preserved.

## Packaging

The product is available in dark glass bottles to protect it from the harmful effects of ultraviolet rays. Each bottle contains 125 ml of pure black seed oil, and the black seed oil carton contains 24 bottles. We also have bulk black seed oil for commercial quantities.

## Applications

Our black seed oil product has many uses, as:

- › It is added to foods and drinks such as milk, yogurt, and honey
- › It is used to care for hair and scalp and improve its growth and health
- › It is used for personal care with cosmetic products
- › It is applied to the body for its soothing and nourishing effects

## Our Customers and Suppliers

---

At Al-Hussan Food Products Factory, we consider our relationship with our customers and suppliers to be more than just a business transaction. It is a partnership built on credibility, mutual trust, and the added value we provide to everyone. We believe that our customers and suppliers are the main driver of our success and continuity. We work hard to provide an exceptional experience that rises to our customers' expectations and enhances our sustainable relationship with our suppliers, to be the preferred choice in the field of natural and healthy products.
