TEA COINS

In crafting our artisan teas, we take an extra step by employing traditional methods to hand-pluck one leaf and a bud from tea gardens bordering and in the foothills of Sri Lanka's glorious Sinharaja Natural Rainforest Reserve. We then naturally wither the tea leaves. This meticulous process allows us to create teas of unparalleled complexity and character. Gralgo tea coins are made from tea leaves that are compressed into a tea coin by our artisans, enhancing the curative qualities, aesthetics, and flavours. It represents an innovative idea and a sustainable decision to switch from your standard tea bag to a tea coin. Gralgo tea coins offer the option to re-steep, allowing individuals to enjoy various flavour profiles based on their personal preferences. Gralgo From Ceylon ethically produces artisanal teas in collaboration with local tea growers.
