Poultry Plant in Mława

Poultry Plant in Mława concentrates largely on serving retail chain customers from Poland and other European countries. Investment in numerous weighing machines, Robot Graders and packaging machines has enabled us to specialize in production of MAP retail trays and VAC packaged meat.

In Mława we have a large IQF line which enables flow-pack packaging while maintaining a fixed number of elements and a fixed weight of each bag.

The plant in Mława is also equipped with a separate production hall for specialized production of Ready to Cook meals, barbecue meals, and skewers.

Daily capacities:

260 thousand
birds

400 thousand
MAPtrays

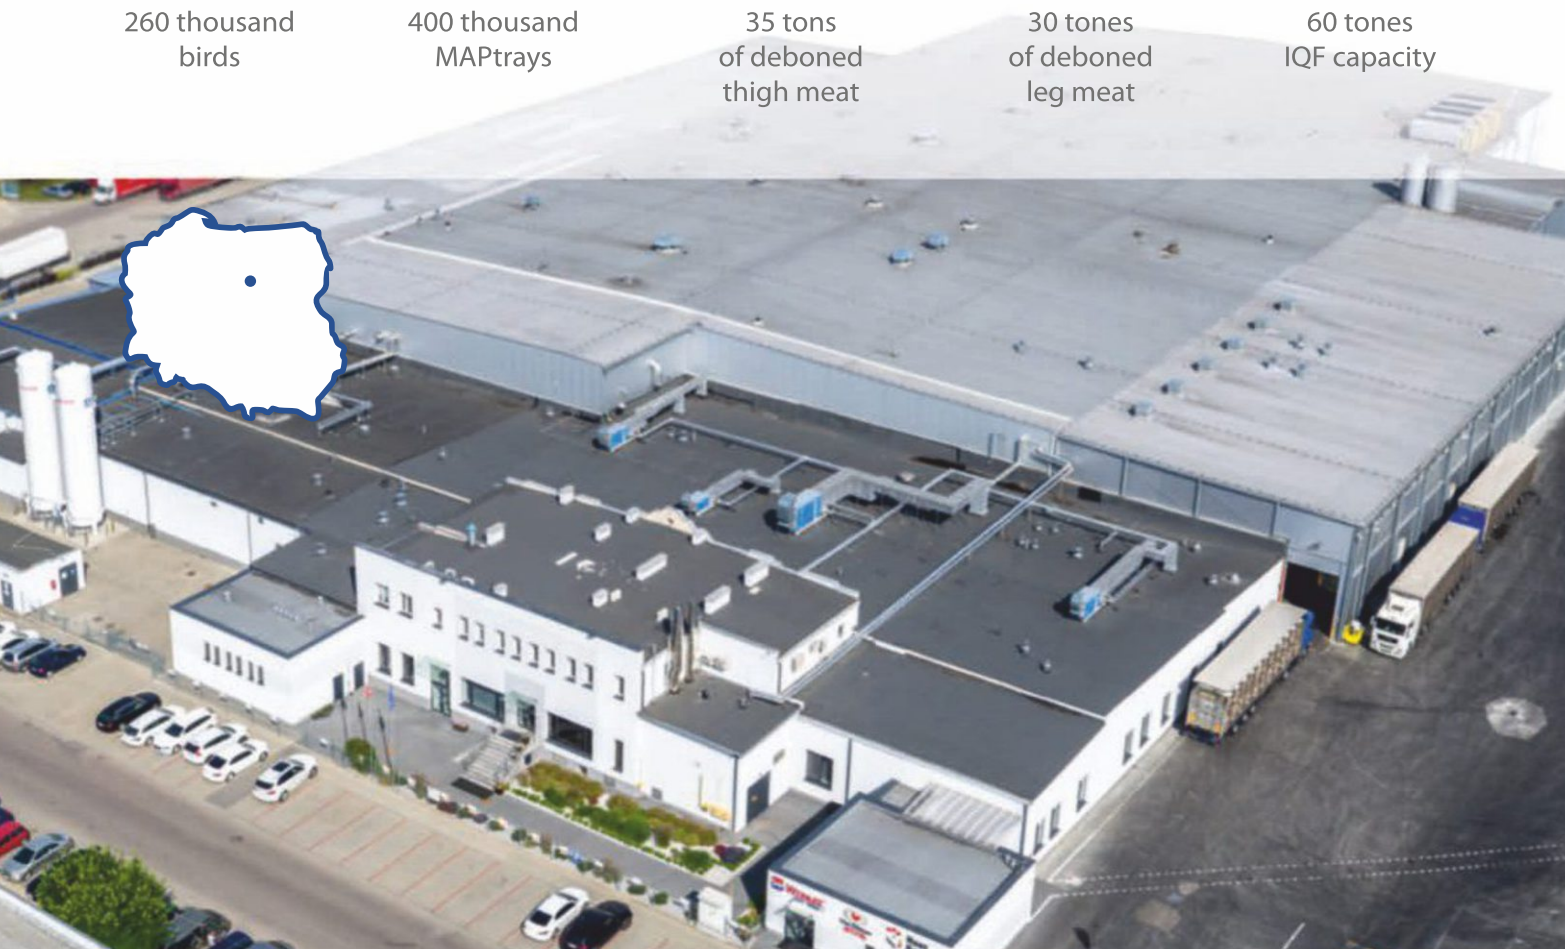

35 tons
of deboned
thigh meat

30 tones
of deboned
leg meat

60 tones
IQF capacity

Poultry Plant in Międzyrzec Podlaski

The strategic role of the plant in Międzyrzec Podlaski is to serve the export market, especially industrial B2B and HoReCa clients.

Production at the plant focuses on obtaining elements customized according to our customers' specifications. Special attention is paid to both calibration and trimming of individual elements.

There is also a separate hall dedicated for convenience products.

Daily capacities:

290 thousand
birds

100 tons
of deboned
leg meat

15 tons
of deboned
thigh meat

100 tons
of meat packed
in Map gastro trays

100 tons
of meat packed
in Vacuum bags

100 tons

products

VERTICAL INTEGRATION

Thanks to the full integration of the production process and the use of innovative technologies, we provide our customers with products that meet the highest quality standards.

RAW MATERIALS

The highest quality grains are obtained predominantly from Polish farmers, and above all, they are tested in laboratories located at each collection centre.

FEED

We use the highest quality raw materials to produce feed mixtures, concentrates, premixes and mineral additives of a world-class quality, thanks to which animals grow properly and naturally.

GREEN FARMS AND CERTIFIED CONTRACT FARMS

Wipasz has its own Green Farms and cooperates with breeders whose farms are certified and under constant control of our veterinary service. With our own slaughterhouses, we collect 550 000 chickens daily.

POULTRY MEAT

Thanks to the advanced technology, we provide meat that complies with the highest quality parameters. It is healthy, safe for the consumer and fully traceable.

CONVENIENCE

In Międzyrzec Podlaski Poultry Plant we have a specialized, comprehensive technology line where we can do all kinds of products. Wipasz's R&D Team develops new ideas which follow the demand of our customers.

QUALITY AND SAFETY OF OUR PRODUCTS ARE PRIORITY

Recognizing the importance of traceability, Wipasz monitors each stage of production 'from farm to fork' and maintains the best microbiological results at the processing plants.

Quality confirmed by certificates:
