# BULGARIAN ORGANIC FOODS

Producers' Cooperative

# WHO WE ARE?

As a cooperative of highly skilled beekeepers, we have a deep-rooted passion for honey production. Our profession is not only hereditary, but also a voluntary pursuit that we have dedicated our lives to.

With a relentless drive for growth and development, we aim to further elevate and innovate upon our inherited legacy.

But development is not through intensive beekeeping, but the development of organic beekeeping, because we think this is the right approach to beekeeping - to provide them with conditions closest to their natural way of life, which has evolved over millions of years.

# BULGARIAN HONEY & APICULTURE PRODUCTS

Honey has become a landmark in Bulgaria for the past decade and can be found at all international exhibitions alongside the famous Bulgarian yogurt, rose oil and wine.

There are thousands of different floral plants in our country and honey bees are one of the purest ways to transmit the essence of the earth into a specific food product, which makes honey an endlessly fascinating topic.

# ABOUT OUR COMPANY

Welcome to Bulgarian Organic Foods, where we're not just a company but a Major Producers' Cooperative for organic honey and bee products in Bulgaria. Established in 2013 by passionate organic beekeepers, our goal is simple: to deliver top-quality organic honey and bee products while promoting cooperation and organic production values.

Our products are obtained respecting the environment and biodiversity, in awareness of the fundamental role played by beekeeping in the ecosystem. The certification system is one of the tools with which our company constantly strives to offer products consistent with Quality and Safety expectations.

Bulgarian Organic Foods promotes responsible practices in organic beekeeping to ensure that the honey consumed every day is reliable and pure.

# COOPERATIVE REGIONS

## ● PRODUCTION REGIONS

- 40 beekeeping farms
- More than 60 apiaries
- More than 15000 beehives

## ● PROCESSING FACILITY AND WAREHOUSE

- Honey and beekeeping products processing
- Packaging from 10 grams to 300 kg

Our apiaries are located in areas where there is no developed industry and intensive agriculture - in the forests and meadows of the picturesque gorge of Iskar, next to the hilly Eastern Pre-Balkan, with wide biological diversity. This is also one of the most important conditions for organic beekeeping - that the area around the apiaries is ecologically clean, that there are no plantations where pesticides or artificial fertilizers are used.

We oversee the entire honey supply chain, from apiary production to processing and marketing. With a deep respect for the environment and biodiversity, we prioritize sustainability in all aspects of our operations. From responsibly sourcing raw materials to utilizing cutting-edge technologies, we ensure that our products uphold the organoleptic and nutritional integrity that our customers expect.

Our beekeepers are chosen for their traditional methods, prioritizing bee health, product quality, and freshness. We provide a rich range of wildflower and monofloral honeys, and high quality beekeeping products: pollen, royal jelly and propolis.

# HONEY VARIETIES

## ACACIA

Acacia honey is a pure and premium honey with a light color, delicate aroma, and sweet taste. It comes from the flowers of the acacia tree and is known for its slow crystallization and low pollen content.

## LINDEN

Linden honey is a fragrant and delicious variety of honey with a light amber color and a sweet, tangy taste. It is collected from the flowers of the linden tree and is known for its medicinal properties.

## WILDFLOWER

Wildflower honey is a golden and versatile honey with a delicate floral flavor. It is rich in antioxidants and minerals and a healthy natural sweetener. It is commonly used in tea, yogurt, and as a topping for pancakes and waffles.

## FOREST

Forest honey is a dark and flavorful honey harvested from bees that feed on forest flowers and trees. It is highly nutritious, rich in antioxidants, and has medicinal properties. It has a complex flavor with woody undertones and is a versatile ingredient for cooking and baking.

# HONEY PACKAGING

## BULKED HONEY

290 kg  
Food Grade Drums

## HONEY IN JARS

30 gr – 1kg  
Private label or own brand

## HONEY STICKS

5 gr – 30 gr  
Private label or own brand

# OTHER PRODUCTS

---

## HONEYCOMBS

200 gr or 400 gr  
Plastic boxes

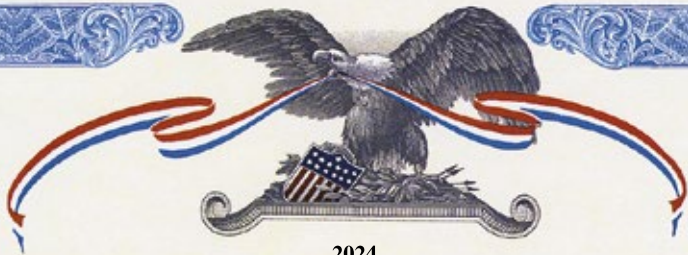

---

---

## POLLEN

100 gr – 500 gr  
Sachets
