

Super Duper Sorbet. Made Fresh On The Farm

Having Received numerous requests from our elite customer base and following consumer trends, we expanded our range to meet consumer requirements

We developed a range of vegan, low fat, lower sugar sorbets with the highest fruit content in the frozen sector.

We feel our sorbets are out of this planet, and here are a few reasons why:

1. The new plant we have installed is giving us a new generation of sorbets with a mouth-feel and consistency of ice-cream.
2. They have a 30%+ inclusion of real fruit as distinct from flavouring or essence.
3. They are suitable for vegan and vegetarian diets, dairy-free, egg free and gluten free.
4. As some proof of those points above, our sorbets have received 4 great taste awards in the past 4 years, (2021-2024). and our mango and passionfruit recently recieved a bronze award in the Irish Quality Food and Drink Awards and a silver award in the Blas na hEireann Irish Food Awards.
5. The low fat/ lower sugar formulation moves the product from being a palate cleanser between courses to a healthier dessert option.
