ROSQVA

About Us

Pastili is specialized in the production and packing of exceptionally pure and fully natural Bulgarian honey and honeycomb products.

Best Quality Available

Thanks to the rich plant species in Bulgaria, our honeycomb is free from pesticides and GMOs, produced by bees away from industrial agriculture.

Wide Sourcing Network

2500 colonies, access to over 20 000 beekeepers

Automated Production

Automated lines to achieve minimal production cost

Recognized Certifications

GMP, HACCP, FSSC22000 and EU Organic certified facilities by SGS.

EU, USDA organic and SGS FSSC 22000 certifications are the final guarantee for our quality products and working standards.

Along with our partnerships with the beekeepers, we operate our own apiaries in one of the cleanest mountain regions of Bulgaria.

HiveBoutique is more than just honeycomb. With HiveBoutique, we're on a mission to change American families' snack choices in the fight against child obesity.

Our premium organic honeycomb not only tastes amazing but also offers a bunch of health benefits.

Our mission is to make organic honeycomb a popular, healthy snack for American families. Loaded with natural goodness, our honeycomb is a nutritious option compared to sugary snacks, helping everyone, from kids to adults, live a healthier lifestyle. With HiveBoutique, you're not just enjoying a delicious treat; you're nourishing your body with essential nutrients and antioxidants.

Come join us in our commitment to making America's snacking habits healthier, one honeycomb at a time. HiveBoutique – where sweet meets wholesome, and health is at the heart of our hive.

HiveBotique

Directly from the beehive

In contrast to the refined foods, Hive Boutique comes directly from the beehive without any further processing, raw and pure, just as created by the Nature.

Harvested from the cleanest mountain regions

HiveBoutique is harvested from clean mountain regions with no industrial crops or pollution. A remarkable blend of flavours, compounds, textures and aromas that bees gently collected from variety of floral essences of the plants.

100% Environment-friendly packaging

Hand crafted glass and wood in the friendliest combination. Fully recyclable, 100% reusable packaging that contributes for preserving the balance between humans and nature.

Logistics: 24 units/carton

ROSOVA

Rosova - a divine blend of Bulgarian Damascena rose and high-quality honey, offering a fresh and exquisite taste experience.

Crafted with organic rose oils and other natural ingredients, this creamy rose honey is a culinary treat that adds a delicate floral touch to desserts, breakfast favorites, and even tea, while providing extraordinary health benefits for both body and spirit.

Bulgarian honey is a name of quality

Bulgaria is one of the strongest beekeeping countries in the European Union with more than 30 000 beekeepers and more than 700 000 bee hives.

Meanwhile Bulgaria has the lowest production costs in the EU. A well planned business with Bulgarian honey products may reach up to 100% profit margins in certain markets.

A partnership, that's worth it!

Contact us, we will be happy to talk business!
