Where Sunflower Seeds
Take Centre Stage

ABOUT US

SUNFLY WHO?

Founded in Estonia with over a decade of expertise in handling and exporting sunflower seeds, we launched SUNFLY

in Winter 2023 with an exciting initial product line of nutrient-rich Sunflower Seed Butter, free from the top 14 allergens, high in protein, and 100% plant-based. This was followed by the world's first high-protein Sunflower Seed Drink, Cold-pressed Sunflower Seed Oil, and Sunflower Seed Protein Powder, fully utilising the entire sunflower seed with no by-products left behind.

At SUNFLY, we embrace a visionary approach to plant-based living, prioritising taste, nutrition, and sustainability. By cultivating and harvesting our own sunflower seeds, we create nutrient-rich products while minimizing CO2 emissions through our field-to-fork philosophy.

SUNFLY WHY?

**RICH IN
PROTEIN**

**PLANT
BASED**

**RICH IN
VITAMINS &
MINERALS**

**TOP 14
ALLERGEN
FREE**
