## COMPANY PROFILE

---

Since its establishment in 2007, Anthony foods limited has grown to become a leading food manufacturer in China which specialises in producing and exporting frozen seafood, frozen wheat product, frozen vegetables and frozen fruits. With extensive manufacturing capacity and years of experience in the industry, our products have been sold to more than 20 countries across different continents, mostly to Europe, Oceania, South America and south-east Asia.

We specialise in producing value-added seafood, especially that of the fish products. Our factory is set up in the Shandong peninsula, which is the largest value-added fish processing region in China. With the well-developed logistic network and one of the biggest harbours in China nearby, we are shipping out over 5000 tonnes of processed products to our customers around the world every year and that number is increasing rapidly year by year.

Here at Anthony foods, high quality and innovation are what we believe in. All of our processing factories are BRC , HACCP, SEDEX, MSC and HALAL approved and certified, which can satisfy your different requests. Anthony foods sincerely welcome the customers and friends around the world to join our way to success and achieve a win-win cooperation.
