In our support portal, you can easily register, track and manage tickets, also when they're created by us. You can also directly and easily talk to our experts from here. Of course, you're also able to give us a call us at **+31 88 130 44 44** or send an email to support@vipspms.com

VIPS Support

Helping you, your way

At VIPS PMS, we believe that all our hotel partners deserve the same high standard of service. In addition to support through our support portal and via email, we are available 24/7 by phone, offer customized training and consultancy, and provide comprehensive knowledge base with video tutorials.

Ask about the possibilities

100+

Open API collaborations

On the VIPS CloudPMS Marketplace, you can choose which external integrations you want to use. It is also exceptionally easy for third parties to implement integrations that streamline your operations.

Effortlessly manage reservations with the intuitive dashboard

Gain insights into your performance with comprehensive reports

Housekeeping in the palm of your hand with multi-device support

Secure and seamless operations thanks to our cloud-native solution

VIPS CloudPMS

VIPS CloudPMS is an all-encompassing hotel Property Management System designed to keep your operations running smoothly, whether you're organizing meetings and events, handling online bookings, improving guest communication, or offering self-check-in options. We also offer VIPS POS, which seamlessly integrates with VIPS CloudPMS to manage your bar and restaurant efficiently.

All-in-one

a selection of our powerful modules

Meetings & Events

No more hassle with third-party systems. Easily manage meeting room layouts, track meeting details, and arrange catering and other event necessities, all from one system.

Multi Property

Effortlessly manage multiple hotel locations. Coordinate reservations, guest information, and operational tasks across all your sites, and access all essential data with just a few clicks.

Online Distribution

Connect with major booking channels like Booking.com, Expedia, and more, or use our built-in Booking Engine to allow guests to book directly from your website.

Communications

Take control of your pre- during- and post-stay communication. Quickly create templates in all languages for confirmations, forms, and more, and maintain clarity with centralized guest profiles.

Self-service Kiosk

Relieve your staff and offer guests a choice during check-in with the customizable Kiosk, while benefiting from upsell opportunities that allow guests to tailor their stay to their preferences.
