## About Black Bear Honey Co.

**A few years ago, I was struggling to come to terms with being diagnosed bipolar. Looking for a way to find balance, I sought out a greater connection with nature. Stumbling into beekeeping changed everything for me.**

After deciding to give up alcohol as part of my quest for mental health, I turned my homebrewing skills towards creating a non-alcoholic soft drink that would make use of the honey from my hives. What I ended up with is something completely new: sparkling cold brewed tea with pure honey.

This isn't your average drink. It's not kombucha, mead, iced tea, or your typical soda. I carefully balance delicate, complex flavours with the rich depth of pure British honey to create a unique, all-natural, gluten-free, and alcohol-free sparkling tea.

That's how Black Bear Honey Co. began, and now I'm sharing it with you. From my bees to your glass, with love.

QUEEN BEE APPROVED

## The Original Cold Brewed Sparkling Tea with Pure, British Honey

Alcohol  
Free

All  
Natural

Bee  
Friendly

Gluten  
Free

Our original sparkling cold brewed green tea is where it all began. It's simply made with two ingredients: Chunmee Taipan Superior green tea, offering a **light, smooth, slightly earthy, grassy, and sweet taste**, and pure honey from our bees and bee farmers in the south of England.

This combination offers potential health benefits like **antioxidant support, digestive aid, and immune system support**, plus a natural sweetness.

## Pear & Elderflower Cold Brewed Sparkling Tea with Pure, British Honey

Alcohol Free

All Natural

Bee Friendly

Gluten Free

Building on our base recipe of cold brew green tea and honey, our **pear & elderflower sparkling tea** features locally pressed Conference and Beurre Hardy pears sourced directly from orchards in Herefordshire. We've also added a delicate elderflower botanical, sourced from the Wye Valley, to create a truly unique and refreshing blend.

The combination of these premium ingredients results in a perfectly balanced and sophisticated flavour profile. It's **crisp and fruity, with honey's sweetness, floral green tea notes, elderflowers, and a touch of pear tartness**. You'll taste nature in every sip.

## Apple & Chamomile

### Cold Brewed Sparkling Tea with Pure, British Honey

Alcohol Free

All Natural

Bee Friendly

Gluten Free

We're excited to introduce a new flavour to our sparkling tea collection. With our love for experimenting, we created the **apple & chamomile blend**. You'll still find our signature green tea base and pure honey from our bees in southern England. We've added locally pressed Gala, Jonagold, and Jazz apples from Herefordshire, plus chamomile sourced from the Wye Valley.

Our sparkling tea offers a subtly sweet, floral taste. You'll notice the **natural sweetness and crisp, mildly tart flavor of the apple blend**. These are balanced by the **mellow, honeyed notes and calming chamomile**. The result is a truly unique and refreshing drink.
