

Seilich

meadow grown skincare
and herbal tea

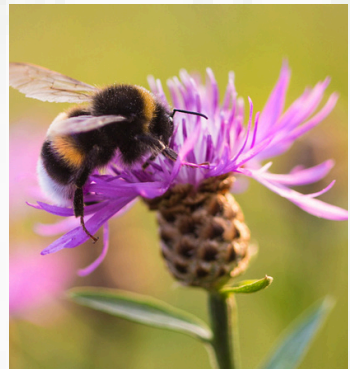

INTRODUCTION

Seilich (pronounced ‘Shay-lich’) products are made from powerful wild grown botanicals that are hand-picked from our beautiful wildflower meadows in the Lothians of Scotland. Growing our own ingredients ensures our products carry the highest provenance credentials, and by picking only the freshest, healthiest plants we secure their exceptional quality.

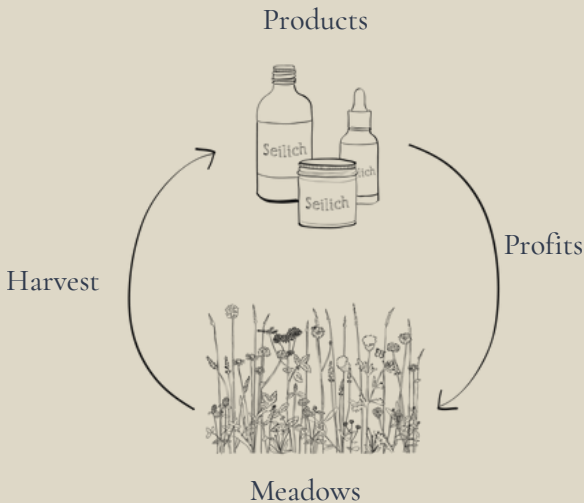

“At the heart of Seilich is a symbiotic partnership with nature, resulting in ingredients of extraordinary quality.”

As nature sits at the heart of everything we do, we are the first company to have gained Wildlife Friendly® certification from the Wildlife Friendly Enterprise Network in the UK.

A DIFFERENT WAY OF DOING BUSINESS

Seilich was founded in 2018 by botanist and nature conservationist Dr Sally Gouldstone. Our purpose is to demonstrate a nature positive business model; using our profits to create a self-funding network of wildlife habitat in the Lothians of Scotland.

We operate a nature-positive, circular business-model, feeding profits from product sales back into nature through on site habitat creation projects.

The wildflower meadows from which we source our ingredients were first created by us in 2020 and provide a sanctuary to an array of wildlife.

PYRAMID TEA BAGS

The Seilich range of pyramid teabag products includes our calming and reviving blends of Wildlife Certified meadow grown loose leaf tea, packed into compostable pyramid tea bags. The teabags are sold in retail ready caddies (containing 15 teabags), or in paper bags (containing 100 teabags) for catering purposes.

HERBAL TEA GIFT SET

This Gift Set contains two 250ml bottles of loose leaf herbal tea (Revive Blend and Calming Blend) packaged in a retail ready carry caddy.

LOOSE LEAF TEA

Our range of award winning loose leaf tea is made from herbs and flowers handpicked from our wildflower meadow.

HAND AND BODY

The Seilich range of hand and body products are made from our unique meadow grown botanicals combined with natural plant based ingredients to produce a range of gentle but effective cleansing and moisturising products. The Reviving Body Wash and Lotion, with peppermint and nettle, refresh and energise, while the Calming range, with chamomile and rose, soothes and restores. Our Meadow Hand Wash and Lotion, made with meadowsweet and rose, gently cleanse and soften, and the Hedgerow collection, blending Scots pine and lavender, offers a grounding, woodland freshness.

THE RANGE

- Reviving Body Wash

NATURAL SKINCARE

Seilich's award winning, Wildlife Friendly certified skincare range comprises a luxurious selection of cleansers, moisturisers and treatments. All made from our unique, hand-picked herbs and flowers, grown in our wildflower meadow.

"I have tried a variety of the products and I am so so amazed by the quality of each and every one - not only is the packaging stunning but the products actually perform just as they are described"
