ABOUT US

Peksan Forest Products was founded in Isparta in 1972 with the production of wooden doors and windows. Since 1995, our company has been manufacturing 40,000 sets of doors annually under the Peksan Kapi brand at our facility in the Isparta Organized Industrial Zone.

Since its establishment, Peksan Kapi has adhered to the principles of quality, health, environmental responsibility, and aesthetics in every stage of design and production.

Our company continues to diversify its product range and invest in R&D activities, offering innovative solutions in wooden door manufacturing that go beyond simply meeting customer demands.

We prioritize safety in our work environments and are committed to providing a secure and healthy workplace for our employees. At the same time, we show the utmost sensitivity to protecting nature and the environment.
