

ALUFAR

Factory
Presentation

ABOUT US

The company "Alufar" was established in Azerbaijan in 2018.

We specialize in the production and sale of aluminum industrial and furniture profiles, furniture fittings, and aluminum facade systems.

Our company is a team of professionals working to make the construction process simpler and more convenient.

We take responsibility for our work, constantly improving service quality, enhancing employee qualifications, and expanding the range of construction and repair materials offered for sale.

We value our reputation and the trust of our clients, so we offer only high-quality materials.

In the near future, "Alufar" will open a showroom to showcase materials or serve customers interested in purchasing products.

OUR VISION

To create innovative solutions using our experience and technological capabilities.

OUR MISSION

We integrate aluminum into every aspect of life for a sustainable future.

OUR ADVANTAGES

Reasonable Price

Our company offers you high-quality products and services at reasonable prices.

High Quality

We guarantee the quality of our products. "Alufar" profiles are made from aluminum alloy 6063, which has high corrosion resistance, excellent machinability, and can be anodized and used in architecture.

Technical Support

Our company provides excellent technical support to its customers and offers expert assistance in assembling profiles.

Quality Control

The finished products of "Alufar" undergo multiple inspections to identify and continuously improve production quality.

AREAS OF ACTIVITY

ALUMINUM SYSTEMS:

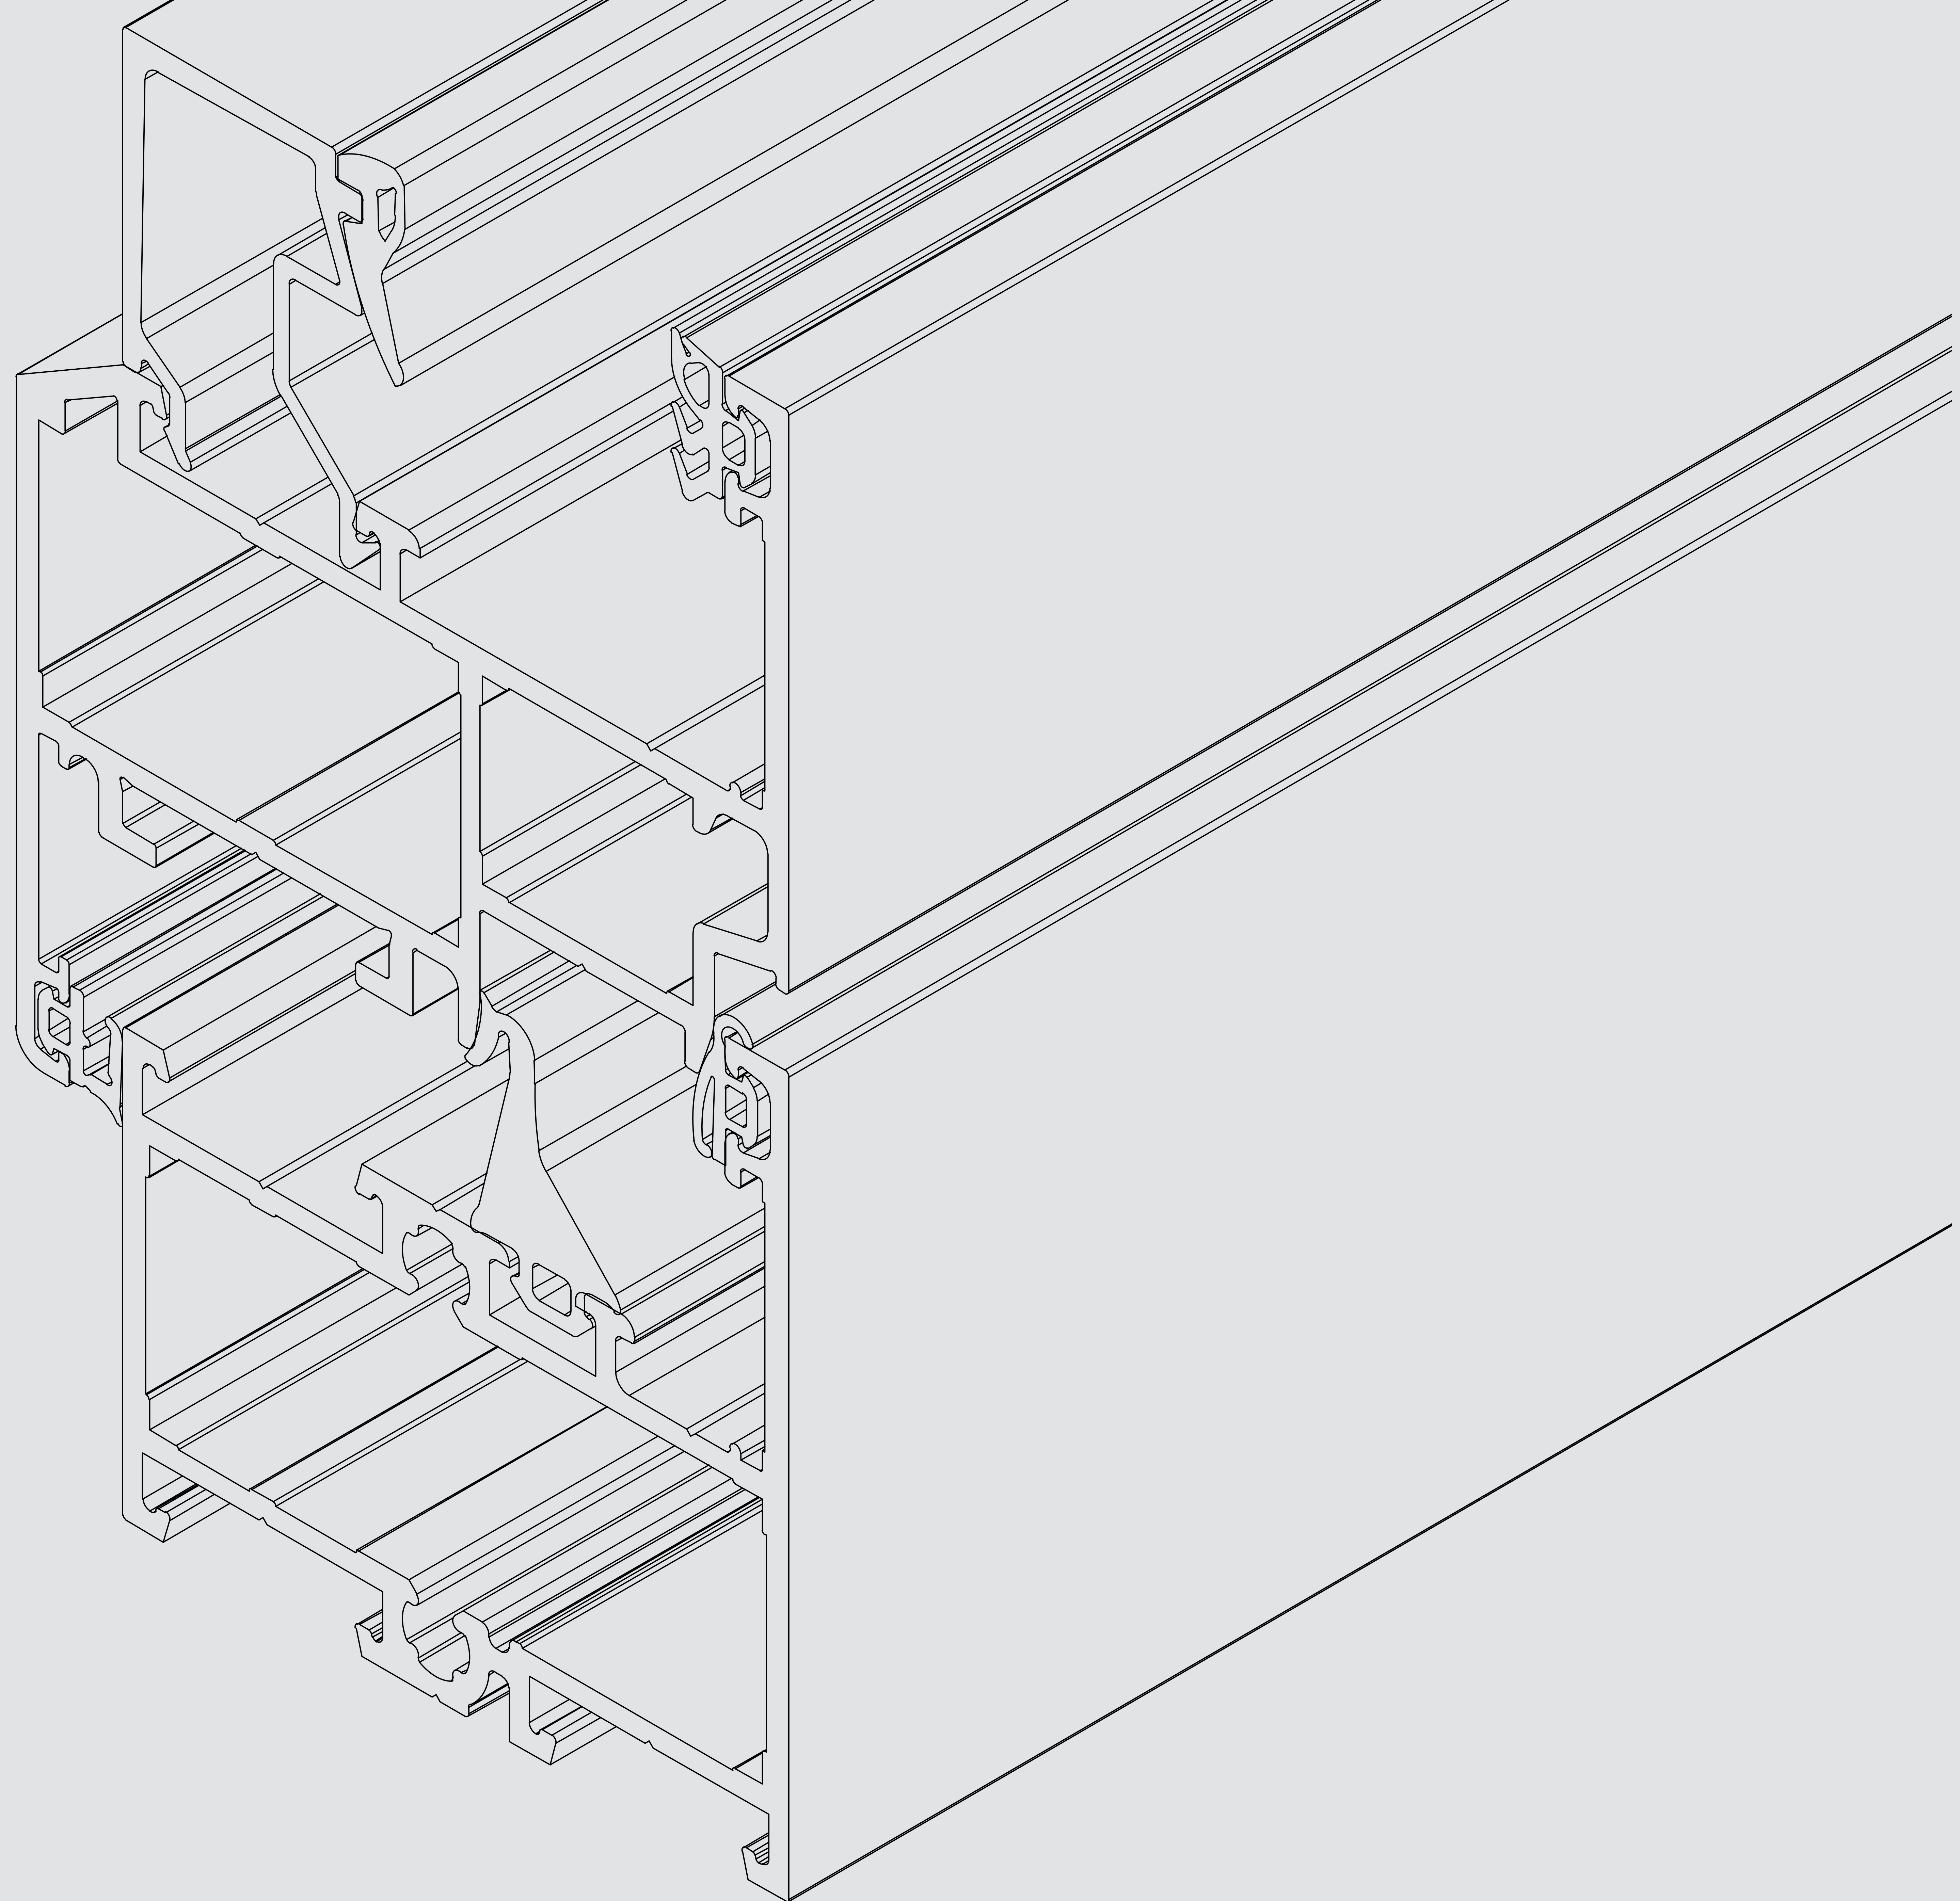

- Production and processing of aluminum profiles for facade systems.
- Production and processing of aluminum profiles for windows, doors, and blinds (Sliding systems HBSB).
- Production and processing of aluminum railing systems.
- General processing of aluminum systems.

MAIN DIRECTIONS:

- Architectural project calculations and turnkey project implementation.
- Fast execution, long-term quality assurance, and skilled workforce.

DELIVERY CONDITIONS:

- You can order components of the Alufar aluminum structural profile system in any way convenient for you.
- Our company's products are delivered via a transport company (hereinafter referred to as TC), which the buyer can choose independently or as recommended by our managers. At your request, the order can be delivered by us to the TC terminal or handed over to the TC representative from our warehouse.
