Glass Software for Installers

**"If you're considering using
Smart-Toolbox, do it quickly.**

**It improves your business,
it improves your image,
it's a great system."**

- Moffat Glass

INSTALLER TOOLS

Managing a glass installation business is better when you have the right tools. Smart-Builder has a range of glass specific tools that are an ideal fit for all glass businesses.

- **Smart-Design (pg 4)** - Range of glass design modules for flat glass, **Balustrades** (pg 6), **Showers** (pg 8), **Shopfronts** (pg 10), **Splashbacks** (pg 12).
- **Smart-Toolbox (pg 14)** - Complete glass shop management tool. Design, quote, order, schedule, invoice and report, **all from one place**.
- **Smart-Web (pg 18)** - Sell glass on your website 24/7.
- **Smart-Glass (pg 20)** - World leading glass designer - web & mobile friendly.

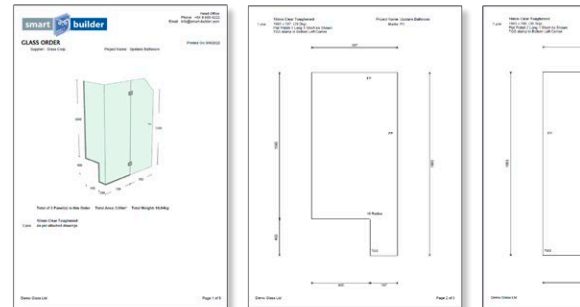

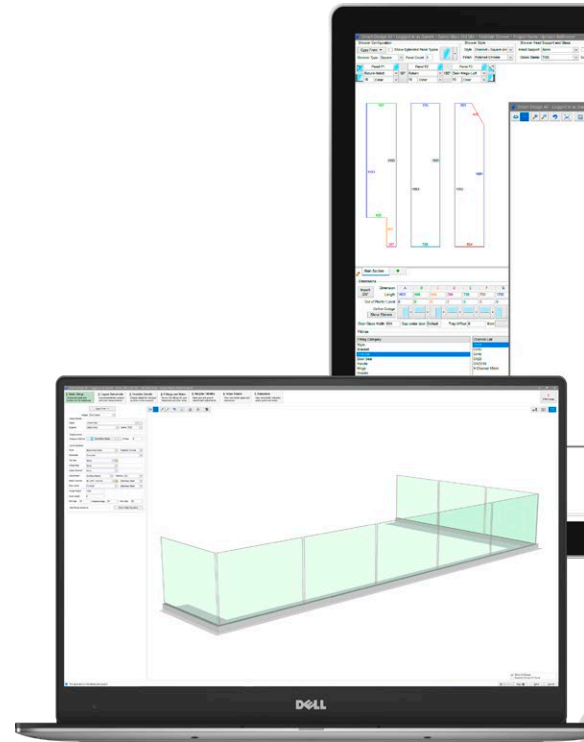

SMART-DESIGN

Glass design tools that make it easier.

When you enter site measurements into Smart-Builder's suite of glass design modules, it calculates glass, cutouts and deductions for you.

Use Smart-Design to create accurately priced quotes, 3D drawings and detailed installation reports for your installers.

It also creates precise drawings for your glass processor all while using your deductions for silicone, hinges and brackets and other design calculation rules.

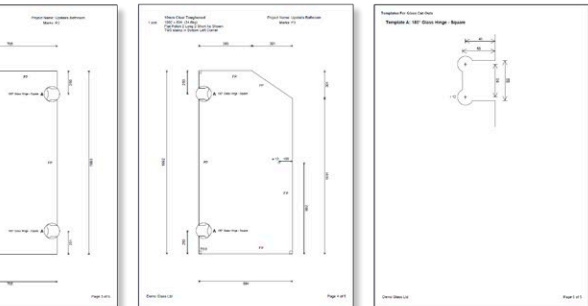

CUSTOMISED

Set your business up for success.

Smart-Design is configured to support the hardware you already use. Our team will take your experts' knowledge and apply it to the design modules so anyone in your business will be able to quote showers, shopfronts, splashbacks and balustrades with ease.

You choose which modules you want depending on the types of glass jobs your business offers.

BALUSTRADE

Drag-and-drop design of balconies, railings and pool fences.

Smart-Balustrade can turn your site measurements into a fully costed, ready-to-order job in minutes. Our software understands the deductions and adjustments that you need to make to be able to order glass for any size project. The 3D render of your design means your customer can see exactly what you are quoting for and eliminate potential misunderstandings in advance.

We Support:

- Stand-offs / face clamps
- Spigots / slotted posts
- Base shoe / base channel
- Inline and offset post and clamp systems
- Spring, soft-close and patch style gate hinges
- Fascia, surface & embedded mount
- Slotted, top & side fix handrails
- Automatically balanced stock glass panels
- Precisely calculated custom glass panels
- Measure from balcony edge, centreline metal or glass
- Post and handrail cutting and drilling instructions

SHOWER

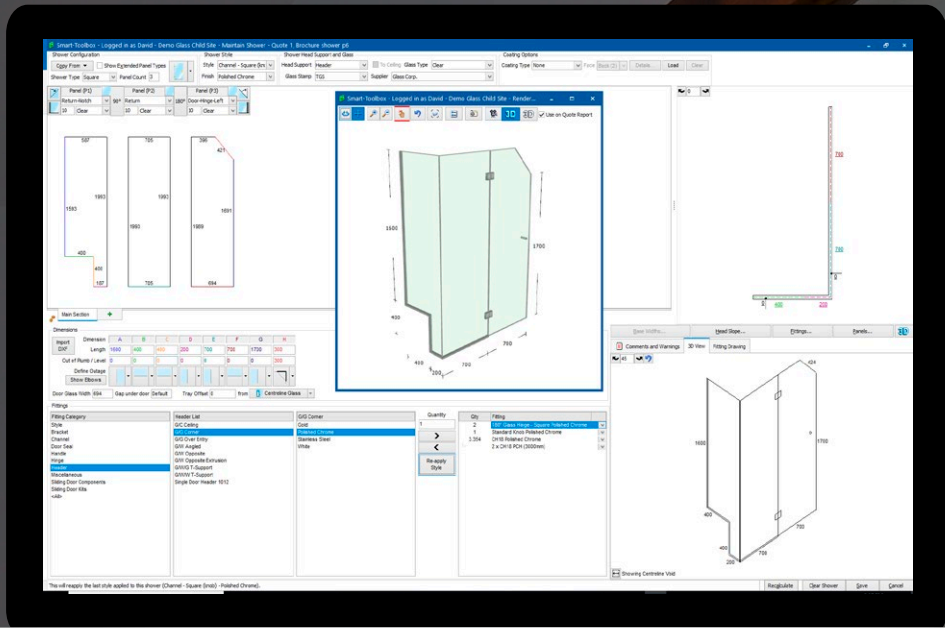

The world's most popular and powerful shower configurator.

Smart-Shower understands the rules and requirements for shower design. It will automatically align your hinge cutouts to your brackets, and built-in warnings alert the user when they forget to add a handle, hinges or head support. **With Smart-Shower, anyone in your business will be able to quote and order a shower in minutes.**

Our team will configure the software to work the way that you do. Smart-Shower will use your design rules and deductions for hardware and glass — setup is fast and easy and we get it right first time.

We support:

- Frameless, semi-frameless & framed designs
- Sliding & bi-fold doors
- Transoms, notches & short walls
- Glass shelves
- Paint, coatings & sand blasting
- Support bars and header systems with automatic material calculations
- Raked ceilings
- Dog leg / elbows
- T-junctions for cubicle design

SHOPFRONT

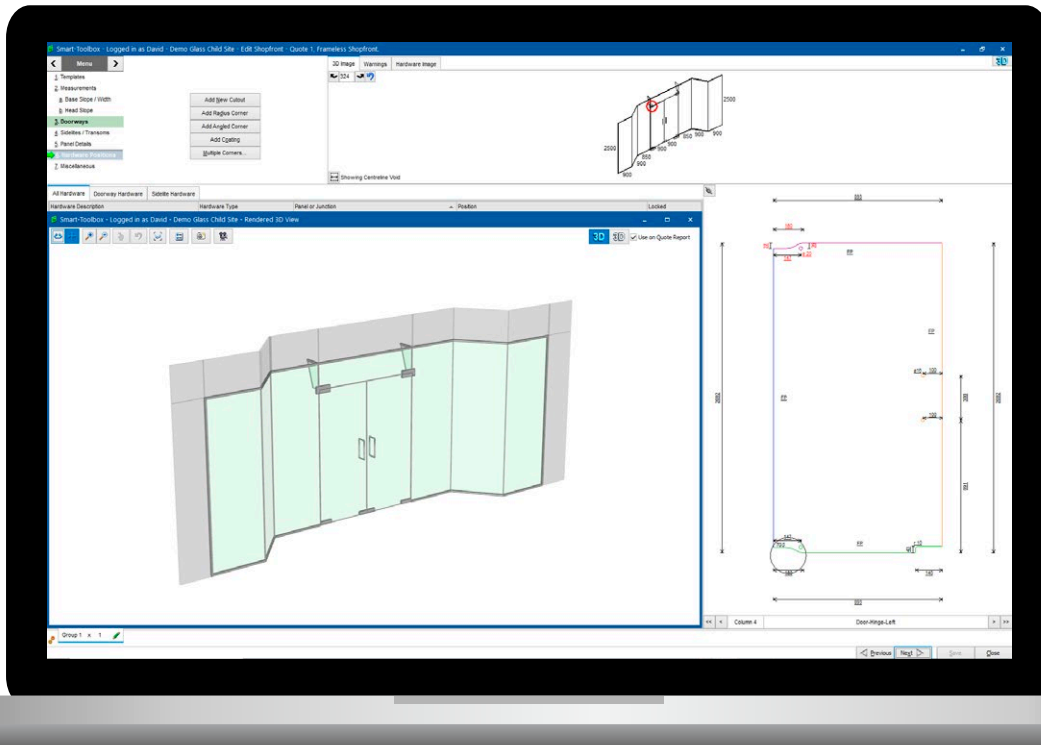

Fast, accurate design of shopfronts & partitions.

Smart-Shopfront is a complete design system for glass shopfronts and internal partitions. As you drag new panels into position, change measurements or alter your hardware selection, Smart-Shopfront automatically recalculates:

- Project costs and selling prices
- Glass dimensions and cutouts
- 3D imagery
- Hardware list

Smart-Shopfront also produces an installation report for your installers and detailed cutting instructions for any channel.

We Support:

- Framed and frameless designs
- Patches, rails & side-hinged doors
- Track and header sliding doors
- Dog legs / elbows
- Extrusion cutting report
- Transoms, notches, fins, rakes & short walls
- Latches, locking patches, maglocks and panic handles
- Multiple elevation projects

SPLASHBACK

Generate beautiful quotes and beat the competition.

Smart-Splashback can follow the outlines of cupboards, windows and range-hoods, and you can simply drag and drop cutouts for power points or taps directly onto your design. It will calculate millimetre-perfect designs along with a full colour 3D image, sure to impress your customers.

We Support:

- Automatic and adjustable clearances and deductions, including adhesive thickness
- Custom coatings, including paint and printed photos
- Auto-polish exposed edges
- Automatic radius on internal notch corners
- Import from laser or mechanical measuring tools

SMART-TOOLBOX

Manage all aspects of your glass business with one system.

Smart-Toolbox is our easy-to-use job management system built for the glass industry. It can come as a standalone system for glass or with any of our design modules built-in.

Quoting

Win more jobs with accurate 3D quotes, including interactive online quotes that can be easily sent to your customers.

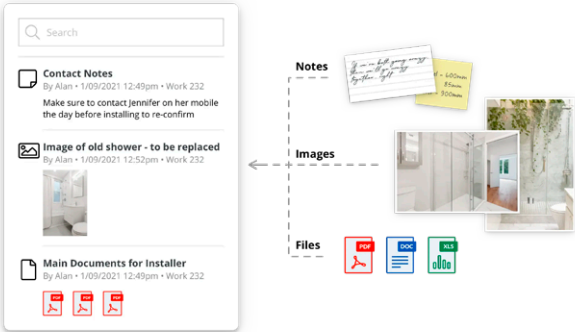

Scheduling

Assign your staff to jobs and schedule their time with ease. Drag and drop jobs to your team members. See routes and travel times on a map!

Job Diary

Stop losing measures and notes with our digital diary - keep all your job documents in one place.

Job Statuses

Stay one step ahead with automatic job statuses that track the progress of your projects.

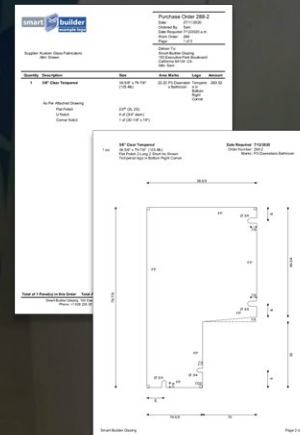

Easy to see statuses of every job with a customised dashboard.

Ordering

Send orders directly from Smart-Toolbox.

Stop drawing by hand. Integrated ordering saves time and lets you track costs, reworks & margins.

Invoicing

Easily generate invoices with the click of a button. Sync with many popular accounting systems.

Everything you need to run your glass shop in one place.

Smart-Toolbox lets you design, quote, order, schedule, invoice and report.

It understands how glaziers price and quote jobs better than any other software on the market.

Contact our team to arrange a demonstration of all the Smart-Toolbox features.

“Smart-Toolbox with the design modules has worked brilliantly. Our staff are able to work remotely and are more productive.

The main reason we’ve chosen to stay with Smart-Builder for over 10 years is the constant improvement and innovation.

You obviously listen to your customers, finding out what they need. You’ve been very innovative.”

- Go Glass

SMART-WEB

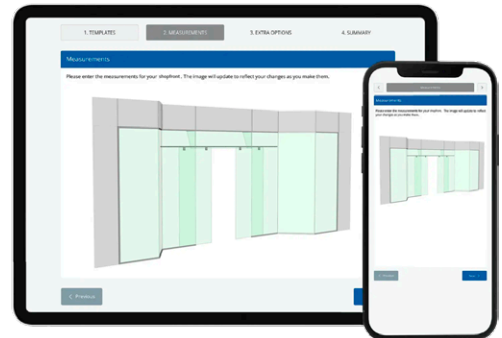

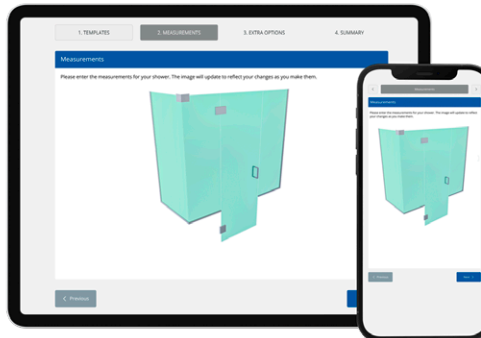

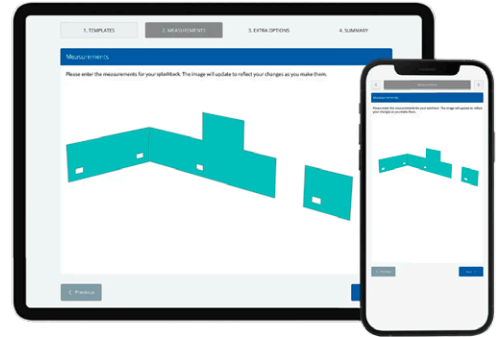

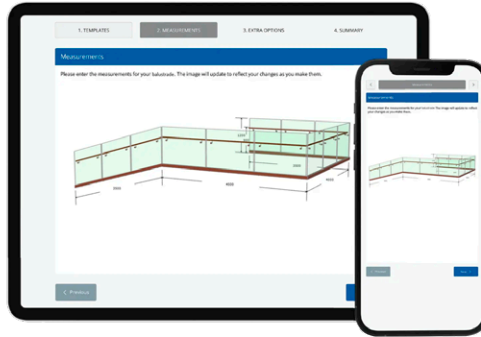

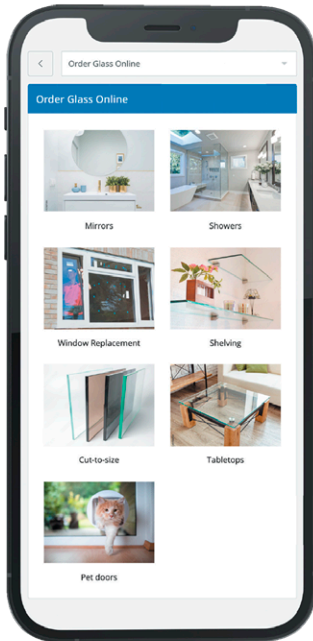

Start selling on your website 24/7.

Customers are spending massive amounts shopping online and often do extensive research for their major purchases - including showers and other glass upgrades for their home.

Smart-Web is the ideal solution to get your glass business selling online as it's not only easy to use, it's easy to set up and add to your existing website.

- Stand out from the competition with a simple but powerful interface
- Let your customers design their own glass
- Take orders even when your shop is closed
- Customers see accurate quotes with 3D images
- Respond faster than other glaziers, winning more jobs
- Customer quotes are production ready with cut-outs and hardware automatically calculated

All design modules available.

SMART-GLASS

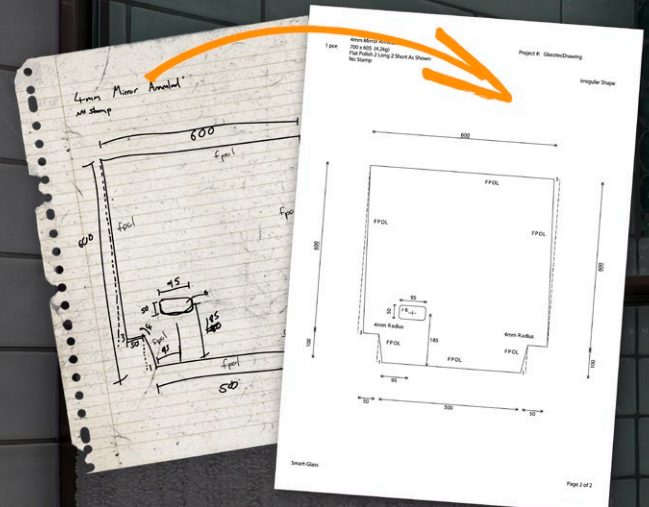

Browser-based glass designer that works anywhere.

Smart-Glass is a simple but powerful glass order entry system for glaziers.

Go from paper to perfect

Stop drawing your glass by hand and give your glass processor a beautiful, clear drawing of what you need.

- Smart-Glass is mobile-friendly, so it can be used on-site or in the office
- It's faster to use than pen & paper making it a real alternative to drawing things out manually every time
- Instant, accurate pricing for all your glass
- Never lose an order sheet again
- Faster processing by your supplier means faster deliveries
