

# About us

By bringing together industry-leading brands, Cyncly is uniquely positioned to connect the entire value chain and transform the way customizable products and spaces are imagined, designed, sold, manufactured and installed.

We help provide consumers with a seamless experience by linking designers, retailers and manufacturers through globally recognized design software, the industry's largest collection of catalogs and customized business and manufacturing process solutions. Cyncly connects the entire process from design and quote to order and from production to installation.

**We help the industry put the consumer at the heart of what they do.**

## Cyncly in numbers

70000+

Customers

2300+

Staff

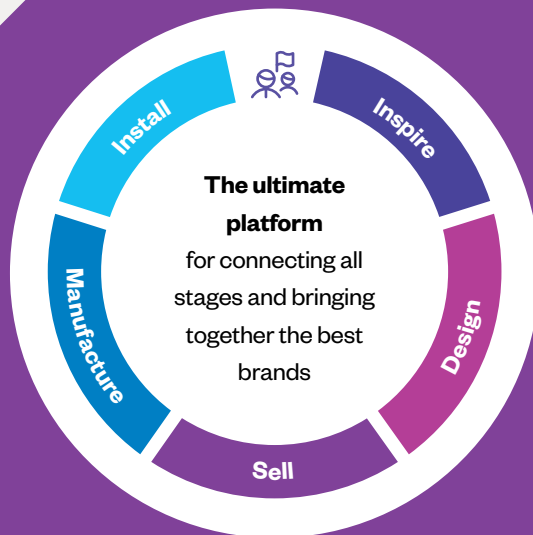

100+

Years of experience

## Our vision

A world where products are designed, sold and made more efficiently by connecting everyone to create amazing spaces that benefit life and our planet.

## Get more windows out the door

Design, manufacture and install windows and doors with ease, speed and accuracy. Manage the whole experience end-to-end on one versatile, connected platform that allows for flexibility and scalability.

## The clarity glass fabricators need to succeed

Manage, view and analyze your glass fabrication operations from one place, from scheduling and production to shipping and invoicing. Reduce damages, increase efficiency, shorten time-to-value and stimulate growth.

## Our windows, doors & glass mission

Our mission is to provide the best products, service and support to each and every customer — every single day.
