Why choose us?

Industry Leader

Established for more than 30 years, we are the largest Stillage manufacturer in the UK, well known for our:

- High Quality Products
- Reliable Service
- Competitive Pricing

Large Volume Specialists

Each year we manufacture and supply tens of thousands of products, including:

- Stillages into the Aluminium and UPVC Profile industry
- Certified A-Frames to the Glass and Building sector
- Skips and Roll-on-Roll-off Containers into Waste & Recycling
- Material handling products into Warehousing, Transport and Logistics

UK Based

All our products are designed and made within our own UK-based factory which enables us to maintain quality, consistency and guaranteed service levels.

Bespoke Design

Our products are not “one size fits all” and we offer a bespoke CAD design service to ensure that our products meet with our customers' exact requirements. We offer strategic advice on transport systems to maximise capacity and to help reduce costs.

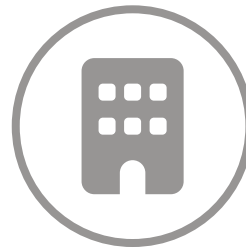

What we do

We design and manufacture Stillages, A-frames and Skips & Containers to meet our customers' exact requirements.

As specialists in fulfilling and managing large-volume orders, we have both the capacity and expertise to manufacture large production runs and meet tight deadlines.
