Standard 80mm Quad Shell Scheme

80mm Quad Shell Scheme gives a fabulous finish, clean lines and the opportunity to upgrade your stand in cost effective ways.

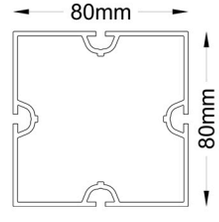

80mm Quad is a modular stand system, built using poles and panels and can be built to any size and configuration. The shell scheme will include walls, fascia, nameboard and carpet.

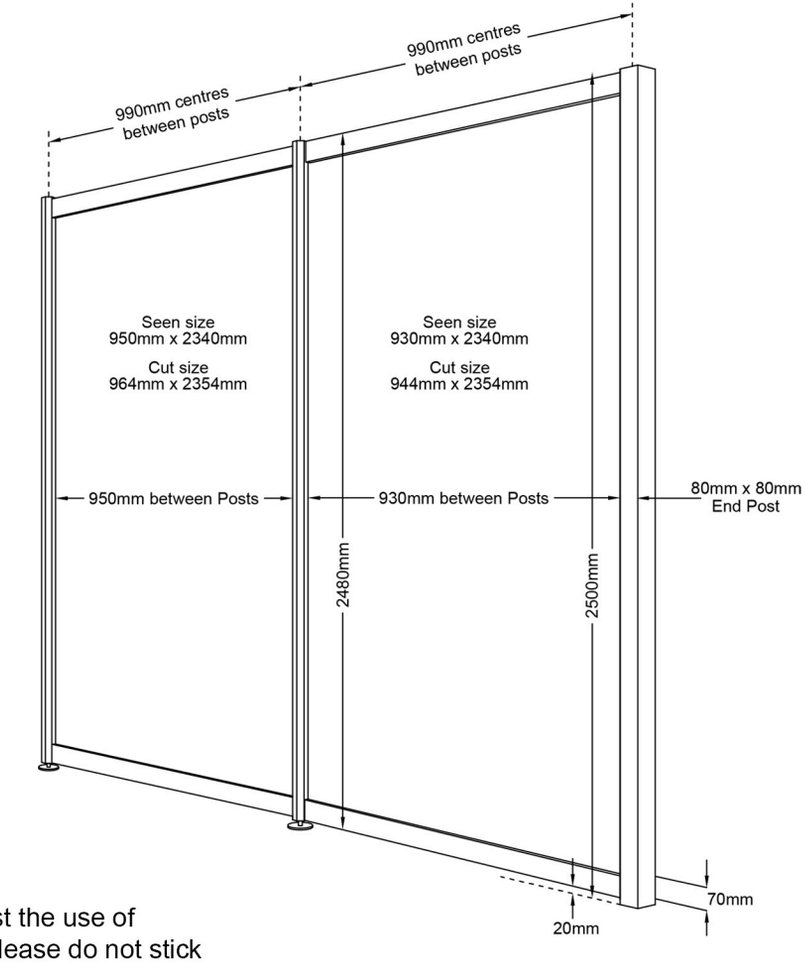

Please be aware that the system **has a minimal ceiling grid**. We will place limited ceiling beams on stands which lighting can be attached to in the normal way but advise that you contact us with exact requirements if placement is imperative to your display.

The specification of the shell scheme is as shown

Cross Section

If you wish to attach materials to your shell scheme such as posters, graphics and / or material we suggest the use of double-sided Velcro or double-sided sticky pads. These options do not damage the panels of the stand. Please do not stick anything to the metal work. **Any damage incurred will be charged for.**

If you have anything heavier to hang or have further enquiries on the shell scheme or any other of our services, please do not hesitate to contact us.
