## About Cambrook Foods

- An award winning specialist manufacturer of baked, seasoned and caramelised nuts & snacks.
- A privately owned company founded in 2012 by Angus Cameron and Michael Brooks who both have over 25 years of experience in the industry.
- We are a member of the Guild of Fine Food and operate from our BRC accredited (AA Grade) factory in Andover, Hampshire.

### We supply:

- Hotels, restaurants and bars with cocktail and minibar nuts & snacks. Customers include The Ritz, Claridges, The Dorchester and The Savoy.
- Good food retailers, hampers, coffee shops and pubs with Cambrook branded packets and jars. Customers include Fortnum & Mason, Ocado, Whole Foods and Fullers.

---

## Sustainability

- Our nuts are sourced from well established reputable suppliers most of whom are Sedex (Supplier Ethical Data Exchange) members <https://www.sedex.com/our-vision-and-purpose/> an organisation which aims to promote not only good working conditions but also sustainable business models to protect the environment
- All our raw products are delivered by sea freight
- Following on from extensive packing trials in 2022 we switched all our plastic packaging from single use plastic to a recyclable plastic. Under the 'Simpler Recycling Scheme' to be implemented by March 2027 all local authorities will be compelled to collect this type of plastic (mono-polyethylene) from domestic homes rather than just kerbside recycling points. This will have a significant positive impact on the actual levels of recycling of our packaging. As well as our policy to eliminate single use plastic we also pack our products into recyclable glass jars which means that all our packaging is recyclable
- We are members of OPRL <https://www.oprl.org.uk> a not for profit company which aims to deliver a simple consistent and UK-wide recycling message on retailer and branded packaging to help consumers re-use and recycle more material correctly and more often. Our recyclable plastic All our packaging adopts these generally recognised OPRL recycling symbols to assist in the drive for more consumer participation in the recycling process
- Our electricity supply is from certified 100% renewable sources
- We have invested in machinery that enables us to convert waste cardboard into protective packaging strips used to protect our products in transit
- The installation of LED lights throughout our offices and factory has reduced our energy consumption for lighting by about 50%
- Our food waste is segregated and recycled through an anaerobic digestion process. This produces valuable renewable energy such as electricity or biogas, as well as nutrient rich fertiliser which reduces the need for petrochemical fertilisers. Grundon (our waste collection contractor) have their entire fleet of vehicles certified Carbon Neutral® which means every time they collect our food waste we will not be adding to our carbon footprint.

---

## Our Range

Award winning nuts available in a variety of different formats to suit the different market sectors we supply

### Retail Packs

A selection of 45g,  
80g and 140g packets

### Glass Jars

A selection of small jars (30g-110g)  
and large jars (160g - 180g)
