# Jerry Thomas

Jerry Thomas—most frequently known by his “Professor” moniker—is commonly considered the father of American mixology. His Bartenders Guide, dating to 1862, was the first such tome published in the country, and included recipes for a number of pre-Prohibition cocktails that drinkers still enjoy today. His image (he’s mostly famously depicted in an engraving that sees him pouring a flaming cocktail between two vessels) is no less memorable.

“Professor” Jerry Thomas was one of the first celebrity bartenders.”
