

CUT LABOUR SCHEDULING ERRORS BY **50%**

- Always overworked or overstaffed?
- Idle staff increasing labour costs?
- Customers dissatisfied with long queues?

STAFF SCHEDULES INFORMED BY DEMAND

Our labour scheduling system doesn't just forecast demand—it crafts **tailored staffing recommendations, aligning roles, skills, and training** to meet the unique challenges of each busy day.

From back-of-house specialists to cross-trained multitaskers, we help you create a team that ensures seamless service and operational success.

- ✓ Translate accurate demand forecasts to **optimal scheduling**
- ✓ Predict your **sales** by product and location
- ✓ Schedule the right **staff**, at the right time
- ✓ **Minimise labour costs** while meeting operational demands
- ✓ Boost **customer experience**
- ✓ Reduce employee **turnover** and improve **morale**

SEE HOW **NANDO'S** SPICED IT UP

While maintaining their people-first approach, Nando's was able to:

- Allocate staff optimally (Across stores, sales channels, and times of day)
- Prioritise staff empowerment
- Optimise customer experience
- Improve service speed

"Predictive Insights shared our commitment to people-first values and really took the time to understand our operational style, lingo, and our particular challenges – this made a significant and massive difference to our interactions."

- Restaurant Support Director, Nando's South Africa

"Trust was essential—we aimed to empower Patrões (managers), not replace them," explains

- Neil Rankin, Predictive Insights' CEO.
