Extraordinary Nuts

We bake nuts (not fry) either for salting or for seasoning with our original recipes of spices, herbs and flavours.

As a supplier to famous hotels we have worked closely over many years with several chefs to develop a unique collection of nut mixes.

Another speciality of ours is caramelising nuts in traditional continental copper pans. It takes great skill and timing to create golden, subtly sweet, crunchy and totally irresistible nuts.

Our packaging is now recyclable whether it is the packets or glass jars.
