Height: 1835mm
Width: 995mm
Depth: 1390mm

PEL 1100BC

Height: 2050mm
Width: 995mm
Depth: 1390mm

"We use the PEL Bin Compactor on our general waste and recycling bins, and not only have we greatly reduced our waste costs, we have also reduced the number of bins in the yard which frees up space and tidies the place up.

With the savings we are making on our waste costs, the PEL equipment will pay for itself in under a year. I would recommend PEL to any school and college.

Philip Tootill

House Manager for Oxford University

"The PEL bottle crushers, bin compactor & baler are saving us a considerable amount of money on our waste disposal costs whilst at the same time creating space and generally tidying up the place around here – machines are easy to use, safe and I would highly recommend if looking for a straight forward cost saving measure."
