**REDUCE
WASTE
BY UP TO
90%**

Additional extras:

- Galvanised Finish
- Bale Trolley
- Smart monitoring

“Since the installation of the PEL baler we’ve reduced time baling and loading bales as well as reducing the risk of accident and injury.

It is a safe and foolproof machine with easy-to-follow instructions. All questions were answered by the PEL team quickly and clearly. We would 100% recommend this product to any other establishments.”

Patrick Foley, Dingle Distillery

“The PEL bottle crushers, bin compactor & baler are saving us a considerable amount of money on our waste disposal costs whilst at the same time creating space and generally tidying up the place around here – machines are easy to use, safe and I would highly recommend if looking for a straight forward cost saving measure.”
