Beverage industry

High handling capacities, precise processes and short time-to-market are essential in the beverage industry. High-speed doors from EFAFLEX for the beverage industry impress with their combination of minimal running noise, excellent insulation and high opening and closing speeds. This improves and fast-tracks work processes. In addition smart forefield-control will significantly improve safety.

Short keep-open times ensure the constant temperatures in production and storage rooms, which are of the utmost importance in the beverage industry. In addition, special machine safety doors protect plant and people and are perfect for integration almost anywhere thanks to their space-saving, compact design.

Individual solutions for the beverage industry.

YOUR ADVANTAGES AT A GLANCE:

- Industry-specific door solutions for smooth beverage logistics
- Unique thermal insulation (U value) for constant temperatures
- Transparent laths for improved occupational safety
- Designed for more than 1 50,000 load cycles per year
- Opening times of up to 4 m/s and closing times of up to 1 m/s

High-speed spiral door **EFA-SST® Classic**

Page 7

High-speed turbo door **EFA-STT®**

Page 8

High-speed turbo roll-up door **EFA-STR®**

Page 9

EFA-SST®
AT A GLANCE:

- Max. heat insulation with EFA-THERM® laths
- Opening speed up to 2.5 m/s
- Closing speed up to 1.0 m/s
- Highest wind load capacity
- Top safety devices
- Up to 250,000 operating cycles p.a.
- Standard sizes of up to w=10,000 mm, h=12,000 mm

Spiral door technology in perfection.

EFA-SST®

The EFA-SST® high-speed spiral door represents a modern generation of industrial doors: perfect insulation, energy-efficient functionality, state-of-the-art technology. During the technical redesign, particular attention was paid to improving the physical properties of the door leaf as well as optimising the functionality, thus once again raising the standard of EFAFLEX industrial doors.

Everything revolves around. **EFA-SST® Classic**

Copied a thousand times, yet still unequalled. The tried and tested fundamental principle of EFAFLEX high-speed spiral doors remains unbeatable! The door blade is not rolled up on a shaft, but is guided into the EFAFLEX spiral instead, saving space and operating virtually wear free.

EFA-SST® CLASSIC AT A GLANCE:

- Aluminium laths double-walled
- Opening speed up to 2.0 m/s
- Closing speed up to 1.0 m/s
- Highest wind load capacity
- Top safety devices
- Up to 250,000 operating cycles p.a.
- Standard sizes of up to
w=8,000 mm, h=7,000 mm

EFA-STT®
AT A GLANCE:

- The door leaf consists at 70% of crystal clear acrylic glass
- Opening speed up to 3.0 m/s
- Closing speed up to 1.0 m/s
- Highest wind load capacity
- Top safety devices
- Up to 200,000 operating cycles p.a.
- Also available in low-header design
- Standard sizes of up to w=8,000 mm, h=7,800 mm

The transparent turbo door.

EFA-STT®

Thanks to laths made of crystal-clear acrylic glass, the door leaf of the EFA-STT® is over 70 percent transparent – this makes it a unique high-speed door worldwide: robust and yet almost completely see-through. The ability to see through the door offers advantages where two-way traffic occurs: Accidents are prevented and smooth transport operations are guaranteed.

The fastest vertically opening door.

EFA-STR®

The high-speed turbo roll-up door EFA-STR® opens at an incredible speed of up to 4 m/s thanks to its spiral technology, making it our fastest vertically opening door. With the EFA-STR®, your logistic processes become faster and more efficient. The combination of a spiral door leaf support and flexible curtain ensures an optimal traffic flow.

EFA-STR® AT A GLANCE:

- Opening speed up to 4.0 m/s
- Closing speed up to 1.0 m/s
- Highest wind load capacity
- Top safety devices
- Up to 250,000 operating cycles p.a.
- Standard sizes up to
w=7,000 mm, h=6,000 mm

10

EFA-SRT® ECO
AT A GLANCE:

- Ideal for material-handling technology
- Space-saving design
- Excellent price-performance ratio
- With optional crash protection
- Opening speed up to 2.0 m/s
- Closing speed up to 1.0 m/s
- Up to 150,000 operating cycles p.a.
- Standard sizes up to w=6,000 mm, h=7,000 mm

The economical interior door.

EFA-SRT® ECO

The EFA-SRT® ECO roll-up door is an extremely economical door system. Special structural preparations are not necessary due to the space-saving design, for example, its very slim side door frames. Thus, the EFA-SRT® ECO can be applied in more situations than any other roll-up door.

Machine protection door for the industry.

EFA-SST® MS

The EFA-SST® MS high-speed spiral door has been specially developed for industrial applications, as stand-alone separating safety guard that fulfils all requirements for a safe and modern machine protection door. We are the only manufacturer of industrial doors to also implement our spiral technology and the flexible hinge chain for optimum performance in our machine protection doors.

EFA-SST® MS AT A GLANCE:

- Functional safety performance level »d«
- Opening speed up to 2.7 m/s
- Compact extruded aluminium laths
- Up to 250,000 cycles p.a.
- Maximum of 7 cycles per minute
- Life cycle of 12 years
- Standard sizes of up to
w=3,000 mm, h=3,000 mm
