PACKAGING MODE

OUTSTANDING PRINTED POTS

www.packagingmode.com

IT'S TIME TO GET INTO PACKAGING MODE!

In an oversaturated food industry, it's hard to encourage brand loyalty in consumers. Add this to unstable markets and currency fluctuations and you need an agile, personable, yet professional packaging partner.

Packaging Mode's innovative approach of making our In-Mould Labelled pots available in batches starting from just 10,000 units enables our customers to be more proactive and flexible in the market and gain a competitive advantage.

Our operations, spread between the UK and Lithuania, ensure the cost-effectiveness, efficiency and accessibility of all our products and services. With strong support and fulfilment services in the UK and more than 100 employees contributing to the 24/7 operation at our Lithuanian BRCGS-certificated, polypropylene food packaging production plant, we promise that every clear or In-Mould Labelled (IML) pot project will run smoothly.

1

SELECTION MODE. CHOOSE A SUITABLE POT

Our food-friendly, tamper-proof pots come in a variety of different shapes and sizes. All our containers are suitable for both hot and cold contents; and the microwave and freezer-safe features will also appeal to the end consumer.

Full IML-ready pot sizes:

Tamper-proof

Hot fill

Freeze

Microwave

Launching a new product?

Our IML trial runs start from only 10,000 units - thus, less risk and more opportunities.

PERFECT COLOUR MATCHING

3

PRODUCTION MODE. AN OUTSTANDING POT IS BORN

Quality talks for itself: from Swiss-made BECK Automation IML robots, to more than 100 employees contributing to the 24/7 BRCGS Grade AA+ accredited operation at the Lithuanian polypropylene food packaging production plant, from vigorous colour consistency checks to diligent delivery and expert account managers in the UK, all is designed to make you satisfied with your brand's IML printed pots.

ONLY 5-WEEK
LEAD TIME

Why
IML?

5 WEEKS

- Highly professional appearance
- Cost-effective (from 8p)
- No labelling equipment required
- Improved sidewall strength
- 10,000 unit trial runs

- Lighter container weight
- Better stain and squeeze resistance
- More environmentally-friendly
- Faster packaging lines: products can be filled in cases

4

PACKING MODE. GET IT YOUR WAY

Our unique waste-reducing packing process allows you to receive an equal number of pots and lids in a box. Alternatively, if you require, we can pack them the traditional way in separate boxes.

FILL

SNAP THE

EQUAL QUANTITIES. ALWAYS.

5

PACKAGING MODE. STAY CURRENT

Staying current in the market requires perpetually being in packaging mode.

Evaluating customers' buying patterns, creating new campaigns, testing the market and gradually expanding the market share.

Our team supports you throughout every step of your packaging journey: from 10,000-unit IML trial runs to full truckloads, from demand forecasting to holding buffer stock at our UK warehouses, from advice to continuous supply agreements - we are on your side.'

6

RE MODE.

Recyclable

Our widely recyclable IML pots are not only cost-effective for you and convenient for the end consumer, but also help to meet government targets for packaging recycling and recovery.
