AGLUpectin®

Functional and no sugar: overcoming new challenges

Health-conscious consumers are increasingly seeking sweet treats without added sugars. Functional gummies now combine **health benefits** with **sugar substitutes**, offering a convenient and indulgent way to support wellness while managing sugar intake.

Our solution

Aglupectin® HS-SB11M is a highly versatile, extra slow set citrus pectin tailored for sugar-free recipes. It provides **excellent texture and stability** during storage of the gummies, without any off-taste. Its advanced **buffer system** ensures outstanding resistance and adaptability to complex ingredients such as minerals, vitamins, plant extracts and sugar substitutes.
