

## COMPANY OVERVIEW

Swiss pack is a leading manufacturer of flexible packaging, specialising in stock and custom printed stand up pouches, coffee valve packaging, flat bottom bags, spout pouches, bar packaging and printed rewind rolls. Incorporating state of the art digital print and rotogravure print technology, swiss pack is uniquely positioned to provide custom printed solutions available in a wide range of sustainable materials. For over two decades swiss pack has provided superior flexible packaging to customers within the following market sectors: food, beverage, medical and pharmaceutical products, industrial goods, health and beauty, household products, nutritional and supplement products, retail and pet food products.

## CUSTOM PRINT SERVICE

Whether you are a start up company trialing a product in the market or an established business interested in a re-brand, our in house design team together with our specialist consultants are on hand to guide customers on their packaging journey. At our core we look to ensure we can maximise the look and feel of our printed packaging whilst meeting any client budget, lead time, volume or special feature requirements.
