Connect with every corner of the industry at

Welcome to Materials & Finishes Show – the UK’s leading trade show for machinery, manufacturers, processors & installers of wood & associated materials.

Born out of the iconic W Exhibition, which has been supporting the industry for over 50 years, Materials & Finishes Show is a B2B trade show bringing together the industry’s most forward-thinking companies, showcasing top-of-the-line

components, technology, materials, and finished products. The event represents all elements of the material journey, from the initial stages of raw processing through to finishing and component supply for completed products.
