TRIVECPAINT

MOVABLE DRYING RACKS

The unique advantages of TrivecPaint adjustable drying racks

Nesting feature

The Trivec drying racks can be nested together to save space when not in use.

Available in many configurations

TrivecPaint drying racks are available in various configurations, including standard and customized. Please ask for the TrivecPaint movable drying racks brochure.

TRIVECPAINT

PAINTING AND SPRAYING

Spray stand for doors

With this spray stand developed specifically to spray doors with greater ease, doors can rotate around their axis. This allows you to spray doors all sides without intermediate drying. After spraying, the door, including pins, can be placed on a matching drying rack. This way, the wet paint does not come into contact with the supports. An efficient method to spray all sides of the doors in a single session.

Spray stand

With the Trivec spray stand, the process of spray-painting kitchen cabinet fronts or other workpieces while hanging them is simplified. Spraying objects while they are hanging offers the advantage of easily coating workpieces from all angles. Available with a variety of hooks to accommodate your workpieces. After painting, parts can be hung in a second stand for drying.

Rotary spraying table

Useful tool for spraying panels, kitchen fronts, stair treads, or other objects. Thanks to the adjustable arms with two pivot points each, support is provided for almost all sizes of subjects. Available in various configurations.

Pouring aid

An ergonomic tool for pouring paints, varnishes, or other liquids from 20 or 30-liter drums. This pouring aid is mobile, to eliminate the need of hauling heavy barrels over long distances. Also available for wall mounting.

TRIVECPAINT

STORAGE & TRANSPORT

Assembly rack

For damage-free storage, transport or sorting of sprayed panels or parts. Available as a custom solution to optimally fit panel and/or utility vehicle dimensions. This reduces rejects and repair work.

AVAILABLE WITH
VARIOUS COVERINGS

Board trolley

The ideal solution for transporting tabletops, doors and large panels. The handles can be easily removed for increased flexibility.

EQUIPPED WITH
6 REMOVABLE BRACKETS

LOAD CAPACITY
500 KG

Mobile cantilever rack

Specially designed for situations where solid wood, frame parts, beams and stair parts occur. Thanks to its 500 mm beams and 9 levels, this model is ideal for the carpentry and stair industry.

LOAD CAPACITY
700 KG

AVAILABLE IN 1500 MM
AND 2000 MM WIDTHS

Door/frame trolley

For transporting or storing doors, assembled frames or metal sheets. This trolley can be configured as desired with a customized height or more storage spaces.

LOAD CAPACITY
700 KG

SUITABLE FOR DOORS
UP TO 2600 MM HIGH

TRIVECPAINT INDUSTRY

IBC tilt stand

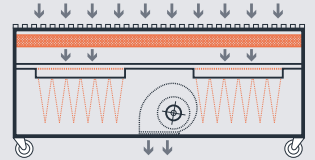

In practice, IBC (Intermediate Bulk Container) containers are often not fully emptied, resulting in product losses and an increased waste stream. With the convenient hand winch on the back, the containers can be easily tilted, ensuring that valuable contents are fully utilized.

 **TILTABLE
UP TO 35°**

Sanding table

When sanding furniture panels, whether it's a preliminary or intermediate step, a significant amount of dust is produced. Even when using a sanding machine connected to a vacuum cleaner, not all the dust is effectively collected. With the Trivec sanding table, you can ensure that dust is evenly drawn in across the entire surface and gathered in the built-in dust bags.

**EXTRACTION CAPACITY:
2500 M³ PER HOUR**

 **1.1 KW
230 V
PLUG & PLAY**

Available dimensions: 1x1 m 1x1.5 m 1x2 m 1x2.5 m 1x3 m

Mobile spray booth

The mobile spray booth from Trivec functions as a "stand-alone" and does not require any installation work. The spray booths are also available in combination with a spray stand or a spray turntable to make the mobile spray station complete.

**AVAILABLE FOR
WATER-BORNE PAINTS
AND SOLVENT-BASED
PAINTS**

 **PLUG & PLAY**

Fixed spray booth

With a fixed spray booth setup, we aim to offer a tailored solution for your specific needs. To understand your requirements, we'd love to arrange a visit to discuss the possibilities and find the best fit for your needs.

TRIVECPAINT LIFTING TABLES

TrivecPaint lifting tables in many configurations

The mobile lifting table allows objects to be at the ideal working height at all times. The working height is infinitely adjustable between 400 mm and 1000 mm, allowing you to work ergonomically on any project. The scissor mechanism ensures stability, even when the weight distribution is uneven. All models are available with a steel, wooden, or without a work platform.

Available dimensions:	960 x 600 mm	1450 x 700 mm	2000 x 1000 mm
-----------------------	--------------	---------------	----------------

OPTIONAL HANDLE FOR
INCREASED MOBILITY

STABILITY ENSURED BY
THE SCISSOR MECHANISM

LOAD CAPACITY
OF 300 KG
