---

The system includes:                      • Walls                                      • Carpet

---

## WALLS

### **\*IMPORTANT NOTICE\***

If you have booked a stand with a wall longer than 5m you may require additional side support panels. The Organisers will send you a diagram to illustrate this. For more information, please contact [ops.sds@montgomerygroup.com](mailto:ops.sds@montgomerygroup.com).

Each panel measures 3m high x 1m wide and 50mm thick. It is constructed from plywood on a timber frame and painted white.

The internal wall dimensions must be taken into consideration if you are printing graphics that span the length of the wall. For specific measurements of your stand, or if you have any other questions about your artwork dimensions, please contact the [BDC directly](#) and they will be able to help you.

For more information or a contact for supplying graphics please contact [ops.sds@montgomerygroup.com](mailto:ops.sds@montgomerygroup.com).

### **ACCEPTABLE FIXING METHODS:**

Only pins, nails, screws and mirror plates may be used to hang exhibits but should exhibitors plan to hang anything heavy (over 5kg per panel), please contact the BDC for advice. Double-sided sticky tape, Velcro, cavity fixings or raw plugs may NOT be used to attach exhibits or graphics on Traditional panels. For more information on acceptable fixtures, please contact the BDC.

If any damage occurs to panels the Business Design Centre will charge the stand holder the full panel price.

### **DILAPIDATION CHARGES:**

If you wish to paint the panels yourself, there is a dilapidation charge of £24.95 per panel and only water-based paints may be used. You can arrange for the painting of panels through the BDC at £58.65 per panel (single sided).

If you are wallpapering your panels you will need to order MFD cladding to eliminate damage to the panel. This will cost £101.14 per panel. If MDF cladding is not ordered this would damage the panel beyond repair and the BDC will charge the exhibitor £120 per panel.

If any damage occurs to the framework the Business Design Centre will charge the stand holder £120 per panel, if there is any damage to the MDF ply infills it is £53 per panel.

## FASCIA/ NAMEBOARD

No fascia is provided with Traditional walling. You will be given a nameboard which can be attached to the wall with pins or staples. If you want to use velcro, the Organisers recommend applying masking tape to the panel first and then adding the velcro to secure the nameboard.

The name is taken from the contract, should you wish to check or change this please let [the organisers](#) know immediately. **Any changes made after Monday 8<sup>th</sup> January will incur a charge of £50.00.**

## FLOORCOVERING

The Business Design Centre is a permanently carpeted venue with dark grey carpet.

If Exhibitors wish to provide their own flooring, they must first lay floor flats or a platform. This must also be finished with metal/plastic edging trim. Carpet or vinyl must not be laid directly on top of carpet. NB: Exhibitors are required to make arrangements to remove their stand carpet from the venue, otherwise they will receive a wastage charge.

## ELECTRICS/ TEMPORARY POWER

There is no lighting or electrics supplied with Traditional walling stands. Organisers recommend that you order lighting for your stand due to the evening events on 6 & 7 February. To order electrics please use the [BDC Online Ordering System](#). Remember to send the BDC a grid/layout to specify location of your electrics otherwise they will be placed at BDC's discretion. Should you wish to move the location onsite, there will be a fee.

## EXTRAS

For a complete range of shell scheme components available for Traditional walling stands and to order, please use the [BDC Online Ordering System](#) (available from September 2023).
