TOP TRENDS

1

LIQUID IRIDESCENCE

Metallic and holographic effects bring immersive qualities and movement to panels, films and textiles for interiors.

2

COLLAGE PATTERNS

Playful multi-directional designs for glass, textiles and wallpaper combine bold colour and shape to create uplifting narratives.

3

COLOUR BLENDS

Thoughtful and artistic techniques are applied to create coloured surfaces that enhance the inherent qualities of the surface material.

TOP TRENDS

4

LENTICULAR EFFECTS

An illusion of depth is achieved through textured surface pattern where colour and finish add to the layered aesthetic.

5

WATERY SURFACES

Surface treatments take on the natural appeal of water with swirling pattern and droplet effects offering a moment of calm.

6

DO GOOD DESIGN

Looking to improve wellbeing for all, start-up businesses are educating us on ethical alternatives to our everyday material choices.
