Welcome to Inspire!

In this edition we feature five of our latest tile ranges launched at this years London Design Festival. Each collection takes its inspiration from the latest trends in interior design, encompassing cement-like textures, striking 3D patterns, artisanal craftsmanship, and timeless marble tones.

Kelemi

Inspired by hand-trowelled cement resin, Kelemi introduces a collection of nine densely pigmented cement-like shades that exude a remarkably realistic appearance. Kelemi perfectly balances minimalism and decoration with its three-dimensional textures and wallpaper effect decors.

ISO 14001 · EPD VERIFIED ISO 14025 · 15% recycled · GREENGUARD · V2 · PTV ≥ 36

Hermatine

Hermatine is a modern collection designed for both wall and floor applications, featuring colours, textures, and veining reminiscent of natural travertine marble. Yet, it boasts the durability of porcelain, ensuring long-lasting quality.
